Address: Indrapuri Sector A, Bhopal Madhya Pradesh, 462023 India

CAREER OBJECTIVE:

With over 2 years of hands-on experience as a Full Stack Developer and strong proficiency in JavaScript, React.js, Node.js, MySQL, MSSQL, .NET Core, and .NET MVC, I am seeking a dynamic role within a forward-thinking organization. My goal is to leverage my skills and expertise to contribute to innovative projects while continuously enhancing my capabilities. I aim to be a key member of a team that values growth, creativity, and excellence in software development.

SKILLS:

- Programming Languages: C, C#, JavaScript, Python
- Backend Development: Node.js, Express.js, ASP.NET Core, RESTful APIs
- Front-end Development: React.js, HTML5, CSS3, JavaScript (ES6+)
- Database Management: MongoDB, MySQL, SQL Server, Database Design, SQL Query Optimization
- Version Control: Git, GitHub
- Testing & Debugging: Unit Testing, Integration Testing, Debugging in Visual Studio, Vs Code and Chrome DevTools

PROFESSIONAL WORK EXPERIENCE:

Full Stack Software Engineer

Acompworld Techno Soft Pvt Ltd, Bhopal

Experience: October 2022 - Present,

As a Full Stack Software Engineer at Acompworld, I leverage a diverse set of technologies and frameworks, including MERN (MongoDB, Express.js, React.js, Node.js), ASP.NET Core MVC, MS SQL, and MySQL, to deliver innovative and high-performance solutions.

Key Responsibilities and Achievements:

- MERN Development: Collaborate with a dynamic team to design, develop, and maintain scalable solutions using the MERN stack, ensuring smooth integration of frontend and backend components.
- Database Optimization: Utilize SQL Server and MySQL to manage and enhance data retrieval and storage processes, improving database performance and ensuring data integrity.
- .NET Core MVC Development: Contribute to the development and refinement of ASP.NET Core MVC applications, applying best practices and coding standards to deliver robust and reliable software solutions.
- Stakeholder Collaboration: Engage with project managers and stakeholders to gather and understand requirements, ensuring the delivery of solutions that align with project goals and exceed expectations.
- Code Review and Mentorship: Participate actively in code reviews, offering constructive feedback to peers, and engage in continuous learning to stay updated with the latest industry trends and technologies.
- At Acompworld, I am committed to driving innovation and excellence, focusing on delivering high-quality software solutions that enhance business outcomes and client satisfaction.

PROJECTS:

Learnnet

October 2022 - Feb 2023,

Learnnet is a professional learning network platform designed for learners to book sessions with mentors. Mentors have the

flexibility to offer learning sessions either for free or at a cost. For paid sessions, mentors can set their own rates, which can vary by skill or topic, or apply a single rate for all sessions.

All sessions on Learnnet are conducted exclusively via Zoom video calls. Currently, in-person sessions are not available. Presently, all interactions are one-on-one, but group sessions for up to approximately 15 participants will be introduced soon.

Technologies Used: MongoDB, Express.js, Node.js, React.js, HTML, CSS, JavaScript, Bootstrap
