## OBJECTIVE

Full Stack Developer with 3+ years of experience in building scalable applications. Passionate about optimizing performance, enhancing security, and delivering efficient software solutions in Agile environments.

## EXPERIENCE

### • Wipro (Karnataka Bank)

Full Stack Developer

Oct 2022 - Present

Bengaluru, Karnataka

- Implemented RESTful API architectures to ensure efficient and consistent communication between clients and servers. Collaborated with frontend developers to understand client requirements and deliver effective API solutions for their applications.
- Designed and implemented a centralized logging system that improved debugging efficiency by 40% and helped identify performance bottlenecks.
- Optimized data manipulation using SQL, enhancing query efficiency by 15%, including writing complex queries to insert, update, and delete records related to loan applications, user profiles, and transaction history.
- Developed reusable React components, reducing development time by 30% and improving scalability. Optimized state management using React hooks, improving application performance and responsiveness by 25%, ensuring real-time updates and seamless user interactions.
- Developed and integrated robust user authentication and authorization systems using Node.js, ensuring enhanced data security and compliance with industry standards.
- Developed and integrated Docker-based microservices architecture, enhancing system modularity and reducing infrastructure costs by 20%.
- Spearheaded end-to-end development and team leadership, leveraging modern JavaScript features to drive efficiency across all SDLC phases within Agile (SCRUM) methodologies.

### • Wipro (Amdocs)

Project Engineer

Aug 2021 - Sep 2022

Pune

- Performed regular API health checks and monitored performance to ensure optimal functionality and reliability.
- Designed and implemented RESTful APIs and microservices using **Node.js** and **Express.js**, ensuring high performance and scalability.
- Oversaw the automation of routine tasks and scheduled jobs, ensuring smooth execution and troubleshooting any issues in automated processes to improve operational efficiency.
- Managed and executed SQL queries for database-related requests, including performing updates, modifications, and data retrieval, while ensuring data integrity and consistency.
- Participated in all phases of the SDLC and agile methodologies, including SCRUM, improving project delivery efficiency by 15%.

## EDUCATION

### • Galgotias University

Bachelor of Technology

◦ CGPA: 8.04

Aug 2017 - May 2021

Greater Noida, Uttar Pradesh

### • Rajkiya Sarvodaya Bal Vidyalaya

12th Standard

◦ Grade: 71.4

Apr 2017

Delhi

## SKILLS

- **Programming Languages:** JavaScript, Java
- **Front-End Technologies:** React.js, React Native, HTML5, CSS3
- **Back-End Technologies:** Node.js, Express.js, RESTful APIs
- **Database Systems:** MySQL, PostgreSQL, MongoDB
- **DevOps & CI/CD:** Docker, Kubernetes, Jenkins, Git, GitHub Actions
- **Other Tools & Technologies:** Visual Studio, Excel, Dbeaver, JIRA

## ADDITIONAL INFORMATION

**Languages:** Hindi (Native Proficiency), English (Professional Working Proficiency)

**Interests:** Travelling, Chess, Badminton
