Profile Summary

- 3 years of experience in web application development with a strong focus on building scalable and efficient web solutions.
- Demonstrated expertise in JavaScript, TypeScript, React.js, Angular, HTML5, CSS3, Bootstrap, Node.js, Express.js, MongoDB, and AWS services.
- Available for **immediate joining** and eager to contribute effectively to new projects.
- Adept at collaborating with cross-functional teams to deliver high-quality applications.
- Committed to continuous learning and staying current with emerging technologies.

Professional Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frontend Frameworks/Libraries:** React.js, Redux, Axios, Bootstrap, Material UI, Tailwind CSS
- **Backend:** Node.js, Express.js, Socket.IO, OAuth, JWT, Firebase, Redis
- **Database:** MongoDB
- **AWS Services:** IAM, S3 Bucket, EC2
- **Tools & Version Control:** Git, NPM, NPX, Postman, Visual Studio Code, Docker

Professional Experience

Associate - Level 2, Smartdata Enterprises (I) Ltd.

July 2022 - February 2025

- Developed and maintained REST APIs modules, reducing response time by 20%.
- Optimized MongoDB queries, reducing database response time by 25%.
- Automated CI/CD pipelines using Docker, minimizing deployment time by 30%.
- Refactored React.js components, improving application performance by 15%.

Education

- **Kavikulguru Institute of Technology and Science, Ramtek**
- B.E. in Computer Technology (2018 - 2022)
- CGPA: 8.3

Project Details

1. MiamiMed Telehealth

- **Technologies:** HTML5, CSS3, Reactjs, Wordpress, MySQL, Bootstrap
- **Description:** **MiamiMed Telehealth** is a healthcare website where patients can select products based on their needs or a doctor's prescription. Patients can only purchase products once approved by a dermatologist, who reviews the uploaded prescription and the patient's medical history. The website includes a set of questions to assess the patient's medical history before approval.
- **Responsibilities:**
 - Managed multiple user roles (Dermatologist, Patient, Admin) to ensure smooth interaction and secure data access.
 - Developed backend services, including database management and API integrations, enhancing system efficiency.

- Optimized API response times by 20%, ensuring faster retrieval of patient data.

2. Helpr

- **Technologies:** HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, MongoDB, Nginx
- **Description:** **Helpr** is a platform that connects customers with service providers for tasks such as plumbing, electrical work, home moving, and trucking. It serves as a mediator, allowing customers to easily find and hire reliable service providers.
- **Responsibilities:**
 - Maintained core features to manage provider and consumer roles, ensuring secure transactions and smooth communication.
 - Enhanced service booking workflows, improving platform efficiency and scalability.
 - Implemented pagination and query optimizations, decreasing database load by 15%.
 - Integrated GraphQL APIs into the platform, allowing clients to fetch exactly the data they need, reducing over-fetching and improving API efficiency.

3. Liaise

- **Technologies:** HTML5, CSS3, React.js, Flutter, Node.js, Express.js, MongoDB, AWS, Redis
- **Description:** **Liaise** is an app that connects creators for collaboration, enabling users to discover nearby creators or connect with talent to expand creative horizons. The platform provides insights from previous collaborations through reviews to assist with informed decision-making.
- **Responsibilities:**
 - Built backend services for subscription management using Apple In-App Purchases, ensuring secure payment processing and profile management.
 - Integrated Redis caching to minimize redundant database queries, reducing response time by 30% and lowering database load by 25%.
 - Reduced database load by 25% by caching frequently accessed data.

Personal Profile

Name : Abhijit M. Nandanwar

Birth Date : 18/12/2000

Citizenship : Indian

Marital Status : Unmarried

Languages Known : Marathi, Hindi, English
