Narvdeshwar

Software Developer

8787205784 ◇ narvdeshwaar@gmail.com ◇ New Delhi, New Ashok nagar ◇ DOB: Oct 02, 1998 ◇ Open to Relocate

SUMMARY

Results-driven Software Developer with expertise in building scalable backend systems and RESTful APIs. Experienced in JavaScript, Node.js, Express.js, MongoDB, and MySQL. Skilled in developing real-time applications, integrating APIs, and optimizing databases. Passionate about creating high-performance applications and ensuring system reliability.

EXPERIENCE

Xenelsoft Technologies Pvt. Ltd.   Nov '24 — Present

Software Developer   Noida, India

- Spearheaded the development of a **KPI tracking system**, increasing organizational performance visibility and enabling real-time, data-driven decision-making across departments.
- Designed and deployed scalable applications on **AWS EC2** and established a robust CI/CD pipeline using AWS CodePipeline for automated build, test, and deployment workflows.
- Streamlined data aggregation and processing pipelines to ensure timely and accurate reporting of business-critical performance metrics.
- Collaborated with cross-functional teams to align KPI analytics and reporting logic with evolving business goals and operational requirements.
- Developed and integrated **RESTful APIs** to generate dynamic, tree-structured data representations based on complex hierarchical relationships.

GlobalLogic   May '24 — Nov '24

Software Engineer   Gurugram, India

- Optimized React's **virtual DOM** rendering to enhance application performance, reducing incorrect offers displayed by 12%.
- Conducted comprehensive quality assurance testing across multiple platforms to ensure **cross-browser** compatibility and mobile responsiveness.
- Received the 'Best Performer of the Month' award, recognizing contributions to project success and technical excellence.

GlobalLogic   Dec '22 — May '24

Associate Software Engineer   Gurugram, India

- Developed, maintained, and deployed production-ready code for client websites using HTML, CSS, JavaScript, and Bootstrap, ensuring high performance and responsiveness.

SKILLS

Programming: JavaScript, HTML, CSS, TypeScript
Frameworks :   React.js, Next.js, Redux (Redux Toolkit), Tailwind CSS, Framer Motion, ShadCN, NodeJS, Express.js
DataBase: MySQL, MongoDB
Tools :   VSCode, PostMan, Git, Github, vite

PROJECTS

Innate Montessori Link   Nov '24 Present
                                                                                                          Noida, India

- A **SaaS-based EdTech platform** using ReactJS, NodeJS, and MongoDB, integrating Zoom to support live virtual classrooms.
- Integrated a real-time chat feature using Ably to facilitate seamless communication between users and students, improving interaction and support.

JSPARK Link   Jan '25 Present
                                                                                                          Noida

- Built a **responsive** company website using ReactJS, HTML, and TailwindCSS. Optimized performance using Lighthouse, improving LCP, FCP, and page speed through lazy loading, code splitting, and image optimization. Ensured cross-browser compatibility and applied SEO best practices for better visibility.

EDUCATION

Bachelor of Technology in Computer science & Engineering, Bansal Institute of Engineering & technology (GPA: 7.99)   Jun '19 — Jun '22
                                                                                                          Lucknow

Diploma in Computer Science & Engineering, Maharana Pratap Polytechnic (GPA: 8.2)   Jul '16 — Jun '19
                                                                                                          Gorakhpur, India
