WORK EXPERIENCE

Backend Developer

CONEON ONLINE PVT LTD

04/2024 - Present
Develop web and App.

Gurugram, Haryana India

Achievements/Tasks

- **Developed and Maintained Backend Systems:** Designed, developed, and maintained backend applications using Node.js, Express.js, and MySQL to support data storage, retrieval, and business logic for web applications.
- **API Development and Integration:** Developed and optimized RESTful APIs for seamless communication between frontend and backend, ensuring efficient data exchange and integration with frontend frameworks.
- **Database Design and Management:** Implemented and optimized relational databases (MySQL), managing complex queries, stored procedures, and ensuring data consistency and integrity.
- **Authentication and Authorization:** Implemented user authentication and authorization using JWT (JSON Web Tokens), ensuring secure access control to backend services and data.
- **Performance Optimization:** Improved backend performance by identifying bottlenecks, optimizing query performance, and implementing caching strategies to ensure scalability and reduce response times.
- **Collaborative Team Environment:** Worked closely with frontend developers, providing API endpoints and integration support to deliver cohesive, full-stack applications while maintaining a focus on backend functionality.
- **Code Quality and Best Practices:** Followed industry best practices, including code reviews, version control (Git), and writing unit tests to ensure high-quality, maintainable, and efficient backend code.

WEBSITE DEVELOPMENT AND MANAGEMENT Intern

GROWIFY DIGITAL

09/2023 - 03/2024
Develop and manage the Websites.

New Delhi, India

Achievements/Tasks

- **Custom Website Design and Development:** Designed and developed tailored websites using HTML5, CSS3, JavaScript, and React.js, enhancing user engagement.
- **Responsive Web Design:** Implemented fully responsive designs, improving mobile user experience and increasing traffic by 35%.
- **E-commerce Development:** Developed e-commerce websites with integrated payment systems, leading to a 20% increase in online sales.
- **Website Performance Optimization:** Optimized website performance, reducing load times by 50% through code minification and image compression.
- **Content Management System (CMS) Integration:** Integrated and customized CMS platforms like WordPress, enabling clients to manage and update their website content easily.
- **Ongoing Website Maintenance:** Provided continuous website maintenance and updates, ensuring security, functionality, and adherence to the latest web standards.
