Experience-

✓ **Project Manager – M&S Consulting 1st July 24 – Present**

▣ **Project Coordination & Agile Execution:** Collaborate with internal teams and external vendors to ensure project delivery on time, within scope, and on budget. Lead daily stand-ups, sprint planning, retrospectives, and backlog refinement, while implementing Agile and Scrum methodologies to enhance team collaboration and project efficiency.

▣ **Client & Risk Management:** Manage client relationships, track project progress, and mitigate risks. Assign tasks to relevant teams (e.g., Support, QA, Developers), ensure effective communication between stakeholders, and maintain detailed project documentation

✓ **Project Manager – Savanta USA 3rd April 23 – 31st June 24**

▣ **Project Planning & Execution:** Define project scope, identify dependencies, and align business objectives with technical requirements. Develop comprehensive project plans, including Gantt charts and critical path analysis, in collaboration with cross-functional teams. Utilize project management frameworks (e.g., Agile, Waterfall) and tools (e.g., Jira, Trello) to monitor progress, adjust timelines, and ensure on-time delivery within scope, while maintaining high-quality standards.

▣ **Process Optimization & Tool Integration:** Implement continuous improvement initiatives by adopting best practices and optimizing workflows. Configure and integrate project management tools (e.g., Jira, Confluence, Google Sheets, MS Project) to track milestones, sprints, and deliverables. Successfully led 10+ international projects across diverse sectors (Education, Tech, Healthcare, Banking, IT), utilizing risk management strategies, resource allocation, and stakeholder communication protocol

✓ **As. Project Manager (BFSI)– Aspire Systems 21st Nov 21 – 19TH Feb 23**

- **Collaborated with top investment banks** (e.g., Goldman Sachs, DFCC) and BFSI teams, leveraging **Temenos T24** for project delivery. Worked closely with stakeholders to capture business requirements and translate them into functional specifications. Led end-to-end project management, including planning, execution, and closure

✓ **Data Management Trainee – HCLTech 1ST March 21 - 1st August 21**

- **Data Cleaning & Validation:** Resolve errors and duplicates; ensure data accuracy using **Excel, SQL, and Python**. Handle report generation, migration testing, and compliance, while coordinating interdepartmentally for project support.
