SKILLS

Languages:	JavaScript, SQL
Front-End Development:	React, Next.js, HTML, CSS, Tailwind CSS, Material-UI (MUI), Shadcn, Bootstrap, Redux, RTK Query, WebRTC, Zustand
Back-End Development:	Node.js, Express.js, Clean Architecture, Repository Pattern, REST API, OOP, MVC, Socket.IO
Databases:	MongoDB
Integrations:	Stripe, Razorpay, Shopify, Firebase, JSON Web Tokens (JWT)
Tools:	Git, Postman, GitHub, Figma

WORK EXPERIENCE

Associate Software Consultant, Emeis Technologies   Feb 2023 - Present

Formula2ship Link

- Spearheaded core modules like Admin/Employee roles, Invoice Generation, GST-compliant reporting, and Bulk Order Import using React, Redux, Zustand, and Node.js. These features led to a 15% boost in shipment processing speed and enhanced admin control.
- Developed authentication using JWT tokens and middleware in Node.js to enforce secure access control for protected routes. Integrated Razorpay and Shopify for secure, seamless payments, reducing failures by 20

CheckNoutWeb

- Engineered a comprehensive patient and hospital management platform enabling appointment scheduling, billing, pharmacist tracking, and medicine logistics, backed by JWT authentication and MVC architecture using Node.js, Express, and MongoDB. Automated billing email alerts improved patient engagement .
- Boosted frontend performance by refactoring React components to reduce LCP from 6.04s to 1.58s, and implemented Redux, React Query, and Zustand for optimized state and data flow, ensuring real-time interactions and scalable UI for medical and admin teams. Twitter Post

PROJECTS

ZenCartel   Live Demo   Frontend Repo   Backend Repo

- Built a business platform with JWT-based authentication, product filtering, admin panel (CRUD, order tracking), and Stripe-integrated checkout; implemented backend APIs with Node.js/Express, secured sessions via cookies, and automated email invoicing using NodeMailer for smooth transactions and admin control.

MedifyAPP   Live Demo   Repo

- Built a responsive healthcare booking platform in React with searchable filters for state and city, enabled users to view and book appointments at medical centers using a calendar-based UI; implemented localStorage-based persistence, dynamic routing, Swiper carousels, and ensured full compliance with accessibility.

AI Bot   Live Demo   Repo

- Developed a responsive AI chat app supporting multi-session conversations with feedback (ratings, comments), chat history, and analytics with filtering; implemented autosave, localStorage persistence, and mobile-friendly UI.

PROFESSIONAL TRAINING & CERTIFICATIONS

- Fellowship Program in Software Development at Crio.Do   April 2023 – Present
Portfolio
- Summer Intern Trainee at Nagarro   July 2022 – August 2022
Certificate

EDUCATION

B.Tech in Computer Science and Engineering	CGPA: 8.2	2019 - 2023
Higher Secondary Education	85%	2018 - 2019
Secondary Education	CGPA: 10	2016 - 2017
