Profile Summary

MERN Stack Developer with 2 years of experience in building responsive, performance-driven web applications. Proficient in JavaScript, Node.js, Express, React, MongoDB, and API integration (Axios), with a focus on clean code and seamless user experience.

Experience

Edunext Technologies Private Limited   **Sep 2022 – Present**

Web Developer   *Noida*

- Worked as a MERN Stack Developer to design and maintain responsive web applications, improving overall user experience and engagement.
- Integrated over 15 RESTful APIs using Axios and Node.js, enabling dynamic data rendering and reducing application load times by 25%.
- Collaborated with backend teams in a microservices-based architecture using Express.js and MongoDB, ensuring smooth integration with Java microservices and achieving a 20% boost in system reliability.

Magic Edtech   **Dec 2021 – Aug 2022**

Digital Media Trainee   *Noida*

- Developed interactive and visually appealing e-books by incorporating HTML and CSS into EPUB files.
- Proficiently used HTML, CSS, and JavaScript for EPUB development, ensuring a seamless reading experience.

Projects

Hiring Portal | *EJS, Node.js, In-Memory Data Storage, RESTful APIs, AJAX* | GitHub   **June 2024**

- Built the portal using EJS and Node.js, enhancing user experience and engagement.
- Implemented in-memory data storage for efficient handling of job listings, applications, and session data, improving data retrieval speed and overall performance.

Social Media API | *Node.js, Express.js, MongoDB, JWT Authentication, RESTful API, Postman, Git* | GitHub **Aug 2024**

- Developed a secure and scalable RESTful API for a social media platform using Node.js and Express.js, implementing JWT-based authentication and authorization for user login, access control, and post management.
- Enabled CRUD operations for posts and comments with MongoDB for efficient data storage and retrieval, ensuring seamless interactions and robust input validation.
- Optimized database queries to improve performance and reduce response times, ensuring a secure and responsive API.

Real-Time Chat Application | *Node.js, Express.js, Socket.io, MongoDB* | GitHub   **October 2024**

- Developed a real-time chat application using Node.js and Express.js, enabling instant messaging and notifications through Socket.io for seamless user interactions.
- Implemented user authentication and authorization with JWT to ensure secure access and protect user data.
- Utilized MongoDB for efficient message storage and retrieval, allowing users to access chat history and enhancing overall application performance.

Technical Skills

Languages: HTML5, CSS, JavaScript,Java
Developer Tools: VS Code, Sublime Text 3
Databases: MongoDB
Frameworks/Libraries: Bootstrap, jQuery, Node.js, Express.js, Mongoose,React JS, React Redux
Additional Skills: OOP, DBMS, CryptoJS, RESTful APIs, JSON Web Token (JWT)
Soft Skills: Communication, Teamwork, Problem Solving

Education

Singhania University, Rajasthan   **2018 – 2021**

Bachelor's in Computer Applications   *CGPA: 7.24*

Trainings

Coding Ninjas   **Jan 2024 – Present**

Full Stack Web Development
- ∗ **Frontend | Backend | Java**
