

SHYAM GUPTA

Node Js Developer

📞 6388173284 @ shyamgupta00555@gmail.com 🌐 <https://www.linkedin.com/in/mrshyamgupta> 🌐 <https://github.com/shyamgupta5555>

SUMMARY

Experienced **Node JS Developer** with a strong background in building scalable, high-performance web applications. Skilled in designing robust backend solutions using Node.js and Express, and dynamic frontend development with React.js. Proficient at optimizing systems, streamlining workflows, and delivering high-quality solutions in agile environments. Committed to clean, maintainable code and successful project delivery from concept to deployment.

EXPERIENCE

Software Developer

Ebizneeds Business Solution pvt ltd

📅 11/2024 - Present 📍 Jaipur, India

- Established project architecture using TypeScript, ensuring scalability, maintainability, and type safety.
- Designed and implemented reusable code modules and common functions to enhance development efficiency.
- Developed dynamic item listing features with integrated analytics and user-friendly functionalities, including "view details" interactions.
- Collaborated on system architecture and feature integration to ensure optimal performance and seamless functionality.

Node Js Developer

Hamilton Web Service

📅 08/2023 - 11/2024 📍 Ahmedabad, Gujrat

- Built and maintained backend microservices for internal web applications. Optimized database performance using MongoDB and MySQL.
- Implemented migration strategies and improved request response time.

MERN Stack Developer

Explore Wonders

📅 06/2022 - 08/2023 📍 Indore

- Developed and maintained applications using the MERN stack.
- Worked on Talabat, a restaurant queuing and food ordering automation platform.

CERTIFICATE

D.C.A.(MS-OFFICE, INTERNET & TALLY ERP WITH GST)

Saurabh Institute Technologics , Kanpur

CCC Course

National Institute of Electronics & Information Technology

Backend Developer Internship

FunctionUp

📍 Bangalore, India

EDUCATION

B.A

Chhatrapati Shahu Ji Maharaj University Kanpur

📅 06/2018 - 07/2021 📍 Kanpur

SKILLS

Backend development with Node.js, Express.js, Nestjs and TypeScript

Databases: MySQL, MongoDB, Redis and PostgreSQL

Development tools : Postman , Swagger, SonarQuab , Grafana , Jest , Git and GitHub

Frontend development: React.js , Bootstrap , Material UI and Redux

Cloud & Tool: AWS S3 , EC2 , RDS , Firebase Microservices , Docker and Git-hub Action

Payment Gateway Integration

PROJECTS

Tour & Tourist Application

📅 11/2024 - Present

- Digital platform for tourism Places with trip planning, booking, and cultural discovery.
- Features: Geolocation-based recommendations, user profile management, itinerary builder, secure bookings, and analytics dashboard for administrators.
- Integrated third-party APIs including Google Maps and payment gateways.
- Tech Stack:** Node.js, TypeScript, PostgreSQL, MongoDB, Redis ,Firebase, Google Maps API.

Build IT (HomeCraft Network)

📅 01/2024 - 06/2024

- Home modification app connecting users with vendors offering services like landscaping, painting, interior design, etc.
- Developed role-based access systems for admin, vendor, sales team, and user panels.
- Features: Project tracking, quotation management, vendor discovery via category filters, vendor social media integration.
- Tech Stack:** Node.js, Express.js, MySQL, AWS-S3, Firebase, Microservices.

Muzy (live-streaming Application)

📅 08/2022 - 12/2023

Muzy is a platform for live-streamed music performances with ticket-based access.

- Developed features including wallet management, real-time streaming, event scheduling, and subscriptions.
- Handled complete backend: authentication, payment gateway (Tap Payment), and AWS-based media management.
- Tech Stack:** React.js, Node.js, MongoDB, Firebase, Agora, Tap Payment, AWS-S3.
