## WORK EXPERIENCE

Zestgeek Solutions Pvt. Ltd. Mohali, Punjab June 2024 - Present

Software Developer

- ELF Expert** - A mobile application designed to support automotive online-to-offline commerce. It allows users to purchase automotive products and access services either at home or in a workshop. Built with Strapi and MySQL for a seamless user experience.
- Chatbot** - An application built with Node.js, Express.js, and MongoDB that allows admins to upload text or files. The content is stored in both MongoDB and Neo4j, with Langchain and OpenAI used for text embedding. Users can query the uploaded content via a generated link, receiving responses based on the stored data.
- MaGuy Medical Transport** - A dynamic ride-booking platform connecting patients with medical facilities, ensuring safe, efficient, and timely medical transportation.

Henceforth Solutions Pvt. Ltd. Mohali, Punjab November 2022 - May 2024

Nodejs Developer

- Clickspert** - An application that connects users with local vendors for services like plumbing, home maintenance, cleaning and more. Built with Nestjs and MongoDB for efficient data handling and payments are safely handled through Stripe.
- Shadowz** - A social media app built with Node.js, Express.js, and MongoDB, enabling users to create and share posts (photos, audios, and videos). It includes a real-time chat feature using Socket.io and video integration via 100ms.live.
- Calcutta** - A sports auction platform where users bid on athletes from various leagues to compete and win real money.
