EDUCATION

CHANDIGARH UNIVERSITY | MCA Computer Science Mohali, Chandigarh, IN | Aug 2022 - Apr 2024

DR. BR AMBEDKAR UNIVERSITY | BCA Computer Science Mathura, UP, IN | Aug 2018 - Mar 2022

EXPERIENCE

ALL DIGITAL | MERN Stack Developer | Blockchain Enthusiastic Remote | May 2024 – Present

- Secured confidential data by developing backend systems using MongoDB, Mongoose, Node.js, and Express.
- Built and optimized decentralized applications (DApps) with Next.js, TypeScript, GraphQL, and Web3.js integrating WalletConnect, MetaMask, and Wagmi for seamless blockchain interaction.
- Conducted smart contract audits to enhance security, compliance, and transaction efficiency using Ethers.js, Solidity, Hardhat, and The Graph.
- Developed responsive and scalable UI using Chakra UI, Tailwind CSS, Framer Motion, and React Hook Form with Yup validations.
- Implemented modern frontend architecture with Jotai state management, Next Themes, Swiper, React Slick, and Recharts for dynamic dashboards and user analytics.
- Maintained high code quality using ESLint, Prettier, Husky, and Lint-Staged, and optimized builds using Rimraf and PostCSS configurations.
- Managed environment setup and static export strategies with Next.js export, next-sitemap, and advanced theme and layout systems.
- Integrated secure Web3 libraries like @web3modal/react, viem, and @usedapp/core for advanced wallet and chain management.

QHR SOLUTION | React Developer Mathura, UP | Aug 2023 – Apr 2024

- Resolved 50+ critical bugs in SaaS applications, improving app performance by 30%.
- Optimized UI/UX designs for responsiveness and mobile-first performance in cloud-based SaaS platforms.
- Worked with teams to enhance SaaS features and ensure timely delivery.

IQUINCESOFT PVT LTD. | React Developer Mathura, UP | Dec 2021 – Jul 2023

- Delivered 4+ client projects with a focus on bug-free functionality and enhanced user satisfaction.
- Implemented reusable React components, improving code maintainability by 25%.
- Managed stakeholder communication to ensure alignment with business goals.

SKILLS

Programming	JavaScript, TypeScript
Frontend Development	React.js, Redux, Next, Bootstrap, Tailwind CSS, Chakra UI, Framer Motion, Swiper React Slick, React Icons, React Hook Form, Yup
Backend Development	Node.js, Express.js, REST APIs
Database management	MongoDB, Mongoose
Blockchain & Web3 Tools:	Solidity, Web3.js, Ethers.js, Wagmi, MetaMask, WalletConnect, Hardhat, Remix, Infura, The Graph
Other Expertise:	Firebase, WordPress, GitHub, GitLab, CI/CD, Jira, Asana, Docker, AWS
Soft Skills & Workflow:	Agile Development, Clean Code, Responsive Design, Version Control, Testing & Debugging
