PROFILE

Full Stack Web Developer over 3 years of experience in front-end and back-end development, specializing in responsive web applications. Proficient in multiple coding languages and frameworks, delivering user-centric solutions aligned with business goals. Expertise in collaborative workflows and version control systems ensures efficient project execution.

WORK EXPERIENCE

2021 – 2024

Full Stack Web developer

Codomotive Software Solutions, Kolkata (Remote)

- Developed full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**.
- Built responsive frontends with React, integrating features like user authentication, dashboard tables with sorting/filtering, and dynamic routing.
- Constructed reusable components and front-end libraries for scalability.
- Executed DOM manipulation and for advanced JavaScript functionality.
- Implemented state management using **Context API / Redux**.
- Optimized performance through **lazy loading, memoization**, and efficient rendering patterns.
- Utilized fundamental UI development principles to improve interface design.
- Developed responsive web applications using Bootstrap framework.
- Integrated **CSV upload**, task assignment logic, and **admin/agent management** in real-world applications.
- Designed and consumed RESTful APIs using Express and Node, with secure data management using MongoDB.
- Troubleshoot, debugged, and upgraded existing front-end applications to enhance performance.
- Used Git for version control and collaborated on GitHub for code reviews and deployment.
