## PROFESSIONAL SUMMARY

A passionate software developer with a strong focus on frontend technologies, including **ReactJS**, **Next.js**, **Flutter**, and **TailwindCSS**, backed by expertise in **HTML**, **CSS**, **JavaScript**, **TypeScript**, and **Dart**. Experienced in designing and building dynamic, user-friendly web and mobile (Android and iOS) applications, with a proven track record of delivering high-impact projects such as a villa booking platform and a BLE-based system for secure hardware access. Committed to creating visually appealing, high-performance front-end applications and collaborating with back-end engineers to ensure seamless, scalable, and robust integrations, leveraging cloud platforms and tools like **Vercel**, **Netlify** and **Docker** to optimize performance and accessibility.

Continuously learning and staying updated with the latest technology trends, I thrive in fast-paced environments that prioritize innovation and collaborative teamwork, bringing ideas to life with meaningful and engaging user experiences.

## TECHNICAL SKILLS

**Languages** : Dart, JavaScript, TypeScript, HTML, XML, JSON, CSS, NoSQL (MongoDB)

**Frameworks** : NextJs, React, Flutter, Vite, Redux, Node.js, ExpressJS, Tailwind

**DevOps and API Tools** : Git, Firebase, Google Cloud, Docker, Swagger, Postman

**Tools** : Android Studio, XCode, App Store Connect, Test Flight, Vercel, Netlify, GitLab, Jira, Plane

**Others** :System Design (Component-based Architecture, State Management), AR (ARCore), BLE (GATT profiles, iOS/Android Integration)

## EXPERIENCE

### Frontend Developer | F22 Labs

October 2023 – Present

- **Collaborated effectively** with cross-functional teams to develop and maintain diverse software solutions, adapting to various tech stacks and user scenarios.
- **Crafted a responsive front-end** for both Villa bookings and Event Management applications, resulting in enhancing overall user experience, as evidenced by a **15% increase in session duration**.
- **Played a key role** in developing Flutter applications, including implementing **Bluetooth-based communication**, **location-based services**, and **advanced UI features**. Also integrated **Firebase notifications**, enabling seamless real-time communication across a group calling application.

### Software Developer | Web3 Citadel

May 2022 – September 2023

- **Developed** and maintained web applications with a focus on front-end technologies, including React, Tailwind CSS, Next.js, and Wallet Connect, improving UI/UX by 30%.
- **Implemented** key features for Flutter applications, notably camera-based AR interactions, enhancing app performance.
- **Collaborated** within Scrum project management frameworks, contributing to the successful delivery of projects on time and within scope.
- **Ensured** cross-device compatibility for websites, working closely with client services, sales, and design teams in a fast-paced, deadline-driven environment.

## PROJECTS

### Carbon Credit Buying Platform | NextJs, React, TailwindCSS, Typescript, Stripe, Web3, MetaMask

August 2023

- \* Search, sort, and buy credits using Stripe, Ethereum wallets, and seamless login via email, Google, or Web3.
- \* Secure transactions with Stripe or MetaMask, plus hassle-free login options for a seamless user experience.

### Villa Booking | NextJs, TailwindCSS, Typescript, Razorpay

June 2024

- \* Created a responsive Villa Booking web app, allowing users to book villas and rooms efficiently.
- \* Developed web interfaces with integrated analytics to track user behaviour, leading to actionable insights and a 20% improvement in overall site performance.

### Financial Edtech Platform | NextJs, React, TailwindCSS, Typescript, RazorPay

October 2024

- \* Enables users to explore, purchase, and access courses seamlessly with Razorpay and email login integration.
- \* Features an inbuilt forum for query resolution and fosters connections among learners for collaborative growth.

## EDUCATION

---

Masai School	<b>Full stack web development</b>   Good	<i>August 2021 – April 2022</i>
Government Polytechnic Ghaziabad	<b>Diploma in IT</b>   Percentage: 72	<i>June 2018 – August 2021</i>

## AWARDS AND CERTIFICATIONS

---

<b>Most Valuable Player of Month</b>   <i>F22 Labs</i>	<i>April 2024</i>
<b>Certificate Program in Full Stack Development with Cloud for Web and Mobile</b>   <i>Masai School</i>	<i>April 2022</i>
<b>Certificate Program in Core Java</b>   <i>Internshala</i>	<i>March 2021</i>
