PROFESSIONAL SUMMARY

Proficient in designing and developing high-performance web applications using JavaScript and Flutter. I have expertise in API development, cloud services, and UI development. Skilled in optimizing code for scalability and ensuring data security. Dedicated to continuous learning and staying updated with the latest industry trends in team collaborative environment with Agile methodology.

WORK EXPERIENCE

2 YEARS+

CAPSA TECHNOLOGY INC. (FULL STACK DEVELOPER)

AUG 2023 - PRESENT

As a Full Stack Developer at Capsa Technology Inc., I've made significant contributions as a Backend Developer, while also delving into the development of responsive and engaging mobile applications using Flutter. By crafting robust backend solutions and implementing innovative frontend features. This experience in a dynamic environment has not only sharpened my technical proficiency but has also provided valuable insights into the symbiotic relationship between technology and global business dynamics.

CAPSA TECHNOLOGY INC. (INTERN)

JULY 2022 - JULY 2023

Capsa Technology is a Fintech institution established in U.S. and operating in Nigeria. I've contributed as a Backend Developer specializing in Node.js. My role involves crafting and implementing robust backend solutions, ensuring optimal performance for web applications. Operating within this dynamic environment has enhanced my technical proficiency and provided valuable insights into the global intersection of technology and business.

MYWAYS.AI (INTERN)

NOV 2021 - MAY 2022

As a backend developer at MYWAYS, I specialized in Node.js, contributing to the design and implementation of robust systems. I collaborated with cross-functional teams, honing my skills in developing scalable solutions for optimal performance

PERSONAL PROJECTS

ONLINE SHOP WEB APPLICATION: An E-Shop, users can put their product to sell and buyers can buy them by placing orders. Tracks Made this project during my NodeJs learning phase and worked on MVC pattern, ejs, expressjs, validation, session authentication, MongoDB, mongoose, mail using sendgrid, etc.

Github: <https://www.github.com/shivamsharma0402/myshop>

MY CAB WEB APPLICATION: A person with vehicle after registering can find passengers across the globe. Useful in remote areas where major cab services are not available. authentication. This is a REST API based project. This project uses Async await, geocoder, JWT tokens, authentication, MongoDB, AWS S3 etc.

ACADEMIC EDUCATION & SKILLS

Rajkiya Engineering College, Kannauj

Bachelor of Technology in Computer Science and Engineering, 2023

- Completed from **2019** to **2023** with an **SGPA** of **7.6**.
- **Technical Member** of UNNAT TECHNICAL CLUB of College

Relevant Course-Work : Algorithms, Data Structures, Operating Systems, Discrete Mathematics, Theory of Computation, DBMS, Compiler, Networks, Software Engineering

CORE SKILLS:

- | | | | | | |
|-----------------|-----------------|-------------------|---------------------|------------------|---------------|
| - HTML (8/10) | - CSS (7/10) | - Bootstrap(7/10) | - Javascript (8/10) | - NodeJs(7.5/10) | - MySQL(8/10) |
| - MongoDB(6/10) | - ReactJs(7/10) | - ExpressJs(8/10) | - Flutter (6/10) | - AWS(6/10) | |

ACHIEVEMENT:

Hackerrank, Five star Coder in Python, C, problem-solving, 30 days of code and 10 days of Javascript, 2700th rank in Data Structure out off 1.3 million coders.
