## PROFILE SUMMARY

Full-stack developer with 3 years of experience in designing and building scalable applications. Proficient in Node.js, Express, JavaScript, TypeScript, Flutter, Dart, and Docker with expertise in developing user-friendly solutions. Skilled in leveraging Google Cloud services for efficient application deployment. Passionate about problem-solving, debugging, and optimizing performance to enhance user experiences.

## EXPERIENCE

### Software Developer Engineer - *Tranzita Systems, Lucknow*

JULY 2022 - PRESENT

**Build ONDC as BNP & SNP** — (Flutter, Node, Typescript, Git, Firebase)

- Led backend development for the ONDC digital commerce platform using Node.js and TypeScript, building RESTful APIs for product search, catalog, and order management.
- Built the mobile app frontend in Flutter, ensuring a responsive and user-friendly UI.
- Integrated backend services with frontend systems, collaborating closely with cross-functional teams for seamless functionality.
- Ensured compliance with ONDC standards and followed agile practices including sprint planning and daily stand-ups.

**SAGE 3.0 Mobile Application** — (Flutter, NodeJs, JavaScript, Git, Azure SQL)

- Redesigned and developed SAGE 3.0 mobile application frontend using Flutter for improved performance, UI consistency, and cross-platform support.
- Upgraded backend services with enhanced APIs and optimized logic using Node.js to support new features and ensure smooth data flow.
- Collaborated in agile teams, ensuring timely delivery of updates and seamless migration from SAGE 2.0 while addressing user feedback and business goals.

**SAGE 2.0 Mobile Application** — (Kotlin, NodeJs, JavaScript, Git, Azure SQL)

- Improved, optimized, troubleshot and add the new functionality of the SAGE mobile application
- Successfully added new features and functionalities to meet evolving business requirements and user needs.
- Contributed to agile development processes, including sprint planning, daily stand-ups, and retrospective meetings.

## TECHNICAL SKILLS

- **Programming Languages:** Dart, JavaScript, TypeScript, Kotlin, C++

- **Frameworks:** Flutter, Node.js, Express, React Native, ReactJs

- **Databases:** Firebase, SQL, MongoDb

- **Cloud:** Docker, Google Cloud Platform, Azure Resources, SharePoint Online

- **Web Technologies:** HTML, CSS, REST API, Razor Pages, API

- **Tools:** Git, Postman, VS Code, Android Studio, WebStorm, MS Office, Linux

## INTERNSHIP EXPERIENCE

- **Intern Engineer (** May 2022 - July 2022**)** - Cargoflash Pvt Ltd, Gurugram, Haryana

- **Web Developer Intern (** Aug 2021 - Sep 2021**)** - Spark Foundation, Singapore

## CERTIFICATIONS

- **Diploma in O-level (IT)** - NIELIT

- **Certificate in CCC** - NIELIT

## LEADERSHIP & RESPONSIBILITIES

- **City Coordinator:** Volunteer for SFA Foundation, Jaipur, Rajasthan, organizing community development initiatives.

- **Team Lead**: Led a team during the Science Fest at MGPG College, coordinating event logistics and presentations.

**OCR Data Input Tool** – (Flutter, MS graph Api, Git, SharePoint Online)
- Developed a mobile application tool using Google ML Kit for text recognition, enabling users to parse and extract specific labels from captured images.
- Integrated OAuth authentication for secure access to OneDrive and SharePoint APIs.
- Conducted thorough testing and debugging to ensure high reliability and performance of the application.
- Contributed to agile development processes, including sprint planning, daily stand-ups, and retrospective meetings.

## PERSONAL PROJECTS

### Payment Gateway Interface (here) – HTML, CSS, JS, RAZOR PAGES
Developed an online payment system using HTML, CSS, JavaScript, and Razor Pages, supporting seamless transactions for small businesses.

### QR code generator (here) – HTML, CSS, JS
Created a tool to generate QR codes using JavaScript for use in product labeling and inventory.

### Tour and Travel Website - HTML, CSS, JS, PHP, Google OAuth
Built a dynamic travel booking website with PHP, JavaScript, and OAuth login integration for secure user authentication.

## EDUCATION

**MCA** – *Madan Mohan Malviya University of Technology, Gorakhpur (8.4 CGPA)*

August 2020 – July 2022

**BSc**. – *Deen Dayal Upadhyay Gorakhpur University, Gorakhpur (56.7%)*

April 2016 – May 2019

**Intermediate** – *Ratna Memorial Public School, Gorakhpur (CBSE-67.8%)*

April 2016 – May 2014

**High School** – *Ratna Memorial Public School, Gorakhpur (CBSE-87.4%)*

April 2014 – May 2012
