

summary

Experienced Backend Developer with **1.3 years** of expertise in **React js, Node.js, Express, Sequelize, MySQL, MongoDB, and Redis**. Strong problem-solving and debugging skills, with a deep understanding of **scalable and secure backend architectures**. Passionate about optimizing APIs and implementing **efficient caching, authentication**.

SKILL

Languages : HTML, CSS, JavaScript
Framework & libraries : React js, Express
Backend Technologies : Node.js, Sequelize ,Redis
Databases :MongoDB, MySQL
Tools : Visual Studio, DBeaver, Postman, Git
Soft-Skills – Excellent Communication, Efficient Management, Attention-to-detail, Critical Thinking

WORK EXPEIRENCE

SDE -1 | Brainbees Solutions Ltd. (Firstcry.com) January 2024- Present

B2B Projects:

AFS (Apparel's Fulfillment System)

- Engineered an automated cart system for store-wise category management based on sales, inventory, and home-brand contribution metrics
- Implemented logic to maintain optimal base stock levels and ensure availability across all subcategories, types, age groups, and genders

FMA (Franchisee Management Automation)

- Streamlined franchisee creation processes and developed analytics tools to track team involvement timelines
- Redesigned workflow architecture resulting in a more efficient and smoother operational process

Technical Contributions:

- Developed **20+ RESTful APIs** using **Node.js, Express.js, and Sequelize**, reducing response times by **30%**.
- Optimized **MySQL queries** and implemented **Redis caching**, improving system efficiency by **40%**.
- Implemented **JWT authentication and role-based access control (RBAC)** to enhance system security.
- Collaborated with frontend teams, **ensuring seamless API integration**

EDUCATION

PG Diploma in Advance Computing August 2023
Bachelor of Engineering (Information Technology) Priyadarshini Bhagwati College of Engg,Nagpur 2018 - 2022
