Professional Summary

Software Developer with 3.5 years of experience in SQL, Node.js, Vue.js, and Express.js. Skilled in building efficient data pipelines, optimizing Queries, and developing scalable web applications. Experienced in integrating frontends with backend services to deliver seamless, user-focused solutions.

Professional Experience

Software Engineer at Evervent, Jan, 2025 - Present

- Led the integration of a motor insurance module into the company's fintech platform, expanding service offerings and user engagement.
- Collaborated with multiple insurance providers to integrate APIs for real-time policy issuance, premium calculation, and claims management.
- Ensured secure and compliant data exchange by implementing robust privacy protocols in line with regulatory standards.
- Streamlined the quote-to-bind workflow to enhance customer experience and reduce processing time.
- Coordinated cross-functional teams (backend, frontend, QA) to deliver the project on schedule with end-to-end functionality.

Software Engineer [L2] at Lucid Outsourcing Solutions, Oct, 2021 - Sept 2024

- Developed and maintained web applications using Node.js and Vue.js.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented RESTful APIs and integrated third-party services.
- Wrote clean, maintainable, and efficient code following best practices.
- Conducted code reviews and provided constructive feedback to peers.
- Participated in Agile/Scrum ceremonies, contributing to sprint planning and retrospectives.
- Assisted in the development of web applications using Node.js and Vue.js.
- Debugged and resolved issues reported by QA and end-users.
- Wrote and maintained SQL scripts to extract data for reporting and analytics.
- Designed and developed complex SQL queries, stored procedures, functions, and views to extract, transform, and load (ETL) data.

Education

Bachelor of Technology in ECE | 2016-2020

School of Management Sciences, Lucknow 76%

Technical Skills

Languages:	HTML, CSS, JavaScript, Basic .NET
Frameworks:	Node.js, Vue.js, Angular.js, Express.js, Microservices
Tools:	Git, Postman, Jira
Databases:	MySQL, Mssql, Mongodb
ETL Tools:	SSIS(Sql server Integration Service)

Projects

Project Management Tool:

Developed a project management web application using .NET, Angular and MySQL, allowing users to create, manage, and track projects and tasks.

E-commerce Platform:

Built a scalable e-commerce platform with Node.js backend, database Mssql and Vue.js frontend, integrating payment gateways and third-party APIs.
