---

### EXPERIENCE

#### Junior Software Engineer | PRP Services Pvt Ltd., New Delhi (June'22 – Present)

- Worked with SMS team to develop the SMS Service Configuration Portal based on Angular, Nodejs, Mysql. This portal allows CPass administrators and users to configure and manage SMS services efficiently. It provides an intuitive interface for setting up SMS campaigns, managing contacts, monitoring delivery statuses, and accessing analytics.
- Worked with IVR team for developing a web-based platform based on Angular, Nodejs, Mysql for configuring Interactive Voice Response (IVR) services. This platform aims to streamline the setup and management of IVR systems, enhancing efficiency and customer experience.

#### Tech Stack

- Angular (Frontend)
- Nodejs, Expressjs (Backend APIs)
- MySQL (Database)

---

### TECHNICAL SKILL

C++	Algorithm	Angular	MySQL
Data Structures	OOPS Concept	Nodejs	ExpressJs

---

### EDUCATION

#### Bachelors of Technology, Computer Science And Engineering (2022)

Guru Gobind Singh Indraprastha University , New Delhi

CGPA: 8.0

---

### ACADEMIC PROJECTS

#### College Connect – Chat Application for College Students

A Web application build using Angular and Stream.io to connect with individual and groups. It provides seamless chat feature, file and photos sharing, threads creation and much more.

#### Skygenesys Technology – Inventory Management and Billing web portal

Developed an Angular, Nodejs and Mysql based comprehensive web portal for managing inventory and handling billing processes efficiently. This platform is designed to streamline operations, enhance accuracy, and provide real-time insights into inventory levels and financial transactions for businesses of various sizes.

---
