## WORK EXPERIENCE

---

### Venturepact

Associate Software Developer

January 2023 - June 2023

- Created UI Components with reusable code to enhance user experience and ensure maintainability.
- Developed and maintained a user-friendly website using HTML, CSS, JavaScript, and React.js, collaborating with both backend and testing teams.
- Optimized web application performance, focusing on load times and responsiveness to improve user engagement and reduce bounce rates.

### Subtlelabs

Software Engineer

May 2024 - Present

- Developing and maintaining responsive front-end components using HTML, CSS, JavaScript, and React.js, ensuring a seamless and user-friendly experience.
- Building scalable backend services with Node.js, Express.js, and integrating RESTful APIs to support front-end functionality and ensure smooth data flow.
- Managing and optimizing MongoDB (NoSQL) databases, performing CRUD operations and enhancing data retrieval performance to support application scalability and efficiency.

## EDUCATION

---

### Guru Nanak Dev Engineering College

Bachelor of Technology(Computer Science and Engineering) - 8.9/10

July 2019 - July 2023

## PROJECT

---

### Growth Value

- Collaborated with the client via chat to understand requirements and gather feedback for frontend improvements.
- Resolved multiple frontend bugs, improving the website's performance and user experience.
- Developed a language switcher feature, enabling users to switch languages and view content based on their preferences.

### Aksa Studio

Technologies: React.js, Node.js, Express.js, JavaScript, HTML, CSS

- Identified and resolved frontend bugs related to the dynamic data comparison views, improving user experience and ensuring accurate data rendering across different devices and browsers.
- Fixed backend issues in Node.js and Express.js, resolving API errors and enhancing the stability of data fetching and processing between two different data sources.

## SKILLS

---

**Programming Languages:** C++, JavaScript

**Web Frameworks:** React.js, Next.js, Typescript

**Other Tech:** Rest API, HTML, CSS, Git, SDLC, Node.js, Express.js, TailwindCSS, MaterialUI Problem Solving etc.
