SUMMARY

I am a Full Stack Developer with over 2.8 years of experience in creating scalable web applications using the MERN stack. I excel in React.js, Node.js, MongoDB, and RESTful APIs. My skill set includes crafting user-friendly interfaces, integrating real-time features, and ensuring seamless data management. I am passionate about leveraging technology to drive innovation and enhance user experiences.

EXPERIENCE

MERN Stack Developer

VeeAar Softtech Pvt. Ltd

08/2023 - Present

A company focused on developing innovative software solutions

- Developing full-stack modules for scalable web apps
- Collaborating with design teams and integrating REST APIs
- Leading the development of reusable components to streamline project workflows
- Integrated media and chat features using Cloudinary & Socket.io

MERN Stack Developer

Vgo Rides Pvt. Ltd

07/2022 - 08/2023

A tech company providing ride-sharing solutions

- Developing full-stack modules for scalable web apps
- Collaborating with design teams and integrating REST APIs
- Played a key role in maintaining application architecture and data flow

EDUCATION

B.Tech (CSE)

Bhagwati Institute of Technology & Science (AKTU)

2017 - 2021 Ghaziabad

B.Sc

Siddiqi Ahamad P.G. College (DDU)

2013 - 2016

Intermediate

TN Janta Inter College

2010 - 2012

High School

UP Board

2009 - 2010

LANGUAGES

HINDI AND ENGLISH

STRENGTHS

Team Collaboration

Ability to work collaboratively in teams while also effectively tackling individual projects

KEY ACHIEVEMENTS

Project Leadership

Successfully led multiple projects enhancing user experience and ensuring responsive web design

SKILLS

Frontend: React.js, Redux, HTML5, CSS3, Bootstrap, Ant Design, Chakra UI

Backend: Node.js, Express.js Database: MongoDB, MySQL, Firebase

Tools: Git, Bitbucket, Postman, VS Code, Cloudinary, CI/CD

Others: JWT Authentication, Socket.io, REST API Integration

PROJECTS

[Neeve.io \(https://neeeve.io/\)](https://neeeve.io/)

- An ed-tech portal offering worksheets, activities, and tools for student-teacher interaction
- Tech Used: React.js, Redux, Node.js, MongoDB, Cloudinary

[GeniusGrid Vidyapeeth \(https://www.geniusgrid.in/\)](https://www.geniusgrid.in/)

- Educational platform with video lectures, study materials, and spiritual tools for student learning

[Aspirations Global \(https://aspirations.global/\)](https://aspirations.global/)

- Career guidance platform with dynamic content modules and admin control.
- Tech Used: React.js, Node.js, MongoDB, Chakra UI

[VGO Chat \(https://vgochat.tech/\)](https://vgochat.tech/)

- A real-time chat app with secure messaging and media sharing using Socket.io and JWT authentication

[Kitabsaller\(https://kitabsaller.com/\)](https://kitabsaller.com/)

- Online platform for buying and selling educational books with user authentication, admin panel, secure payments, and responsive design.
