🧩 LeetCode

WORK EXPERIENCE

Accenture   **August 2024 - Present**
Software Engineer

- I worked on Application for Handling Client Data and Accenture Business. Design and manage databases using PostgreSQL for structured data storage.
- Implement and optimize AWS Lambda functions for serverless computing tasks.
- Configure SES which trigger email based on Event and their corresponding templates.
- Excel Report generation by fetching Data from data base asynchronously.
- Monitor and troubleshoot application performance on AWS CloudWatch.
- Participate in continuous integration/deployment pipelines using Azure DevOps.
- Ensure application security and data protection through proper IAM roles, policies, and cloud security practices.
- Write Test Cases using Jest and fixed lint error for Node Application.
- Use modern JS syntax to improve readability and maintainability of async. operations.
- Proficient in writing and managing asynchronous code using event listeners, callbacks, promises, and async/await patterns.

LTIMINDTREE   **January 2022 - August 2024**
Software Engineer

- Developed and maintained scalable server-side applications using Node.js.
- Integrate front-end components with RESTful APIs and other backend services.
- Implemented authentication and authorization mechanisms using JWT and OAuth.
- Applied best practices in error handling, logging, and debugging and Unit Testing using JEST to maintain application stability.
- Handling asynchronous data fetching and managing application state accordingly.
- Developed serverless applications using AWS Lambda, API Gateway, and Step Functions.
- Developed frontend feature and Single Page Application using React.
- Integrated MongoDB and DynamoDB with Node.js applications using Mongoose for seamless data interaction.
- Utilized MongoDB's aggregation framework for complex data processing and analytics.
- Experience working in Lazy Loading and async file loading using CDN in react.
- Extensive experience in developing real-time applications using Socket.io.

EDUCATION

Bachelor of Technology - BTech Haldia

Institute of Technology, Haldia   **Aug 2017 - July 2021**

Intermediate / High School

Sri Ramanugrah High School Wazirganj   **April 2015 - March 2017**

TECHNICAL SKILLS:-

- Solved 120+ Leet code Problems.
- Hold AWS Developer Associate Certificate.

Skills   Backend Developer | Node.js Developer | HTML5 | CSS3 | JavaScript | AWS | TypeScript | Node JS | Express.js | RESTful API | React.js | MongoDB | SQL | React | Java
