- **Frontend**: HTML, CSS, JavaScript, basic React
- **Backend**: Node.js, Express.js, MongoDB, MySQL
- **Misc**: GitLab/Git/GitHub/Git Actions, Docker, AWS (S3, EC2)

EXPERIENCE

Pay Panda Payment Solutions, Noida, U.P
June 2024 - March 2025
- Managed and enhanced portals using Node.js and Express.js for improved functionality and performance.
- Developed backend solutions using JavaScript,Node Js,building robust RESTful APIs to facilitate smooth data exchange between the frontend and backend.
- **Utilized MongoDB for database management**, creating schemas and optimizing data storage and retrieval through techniques like indexing ,resulting in a 30% improvement in query speeds.

- Integrated 3rd-party APIs, such as payment gateways and messaging services, ensuring efficient handling of responses for a seamless user experience. By managing API rate limits and error handling, I maintained stability and continuous service availability throughout the system.
- Implemented high-performance, optimized queries for rapid and reliable results.

[Techpax Technology](#), Patel Nagar ,Delhi

January 2023 - October 2023
- Ensure user satisfaction and retention by developing new features and fixing bugs.
- Built and maintained backend systems using Python FastAPI, with MongoDB for data storage
- Deployed and managed applications on AWS services, including EC2, S3, and SNS.
- Wrote high-speed queries to get quick and accurate data results.

[Sedaux Technology Private Limited](#), Noida, U.P

June 2022 - January 2023
- Developed full-stack applications, working on frontend technologies like HTML, CSS, Bootstrap, JavaScript, and React.js.
- Organized and led a team of 4 members achieving fruitful results.
- Managed SQL databases, optimizing queries for improved data retrieval and performance.
- Collaborated closely with teams to ensure seamless integration between frontend and backend components.

INTERESTS Exercise, Reading, Meditation.
