PROFESSIONAL SUMMARY

A skilled Frontend Developer with expertise in building responsive, user-friendly web applications using **ReactJS**,. Experienced in designing **scalable components**, leading the creation of **internal frameworks** and **responsive component library**. Proficient in integrating **front-end with RESTful APIs** to ensure seamless communication. Focused on creating **high-performance, visually appealing user interfaces & continuously exploring new technologies** to deliver **optimal solutions**.

EDUCATION

CDAC Post Graduation Diploma in Advanced Computing	Percentage – 84%	2022 – 2023
Bachelor's of Engineering University of Mumbai , Mumbai, Maharashtra	CGPI – 7.98	2019 – 2022

TECHNICAL SKILLS

Frontend : HTML, CSS, JavaScript, Typescript	Database : MongoDB, MySQL, PostgreSQL, Firebase
Frameworks & Libraries : React, Next.js, Angular	Version Control : Git, Github
Styling Tool : Material UI, Mantine UI, Tailwind, Bootstrap	DevOps Tools : Docker, Kubernetes, Jenkins, CI/CD Pipelines, Nginx
Backend : Node.js, Express.js, NestJS, FastAPI, Java, Spring Boot, Hibernate, RESTful APIs	Cloud Services : AWS, Azure, Oracle, Blob Storage
	Services Integration : Azure DevOps, AWS Services, Oracle

PROFESSIONAL EXPERIENCE

Purecode AI (Frontend Developer), Hyderabad	Jan 2024 - June 2024
<ul style="list-style-type: none">Developed and implemented front-end components using HTML, CSS, and JavaScript, improving the AI project's usability and increasing user engagement by 25%, while adhering to best practices for maintainability and scalability.Led the development of an internal responsive component library in React, reducing front-end development time by 30% across multiple projects and ensuring consistent design and functionality across teams.	
Techno-Cipher IT Solutions (Software Developer), Pune	Jul 2022 - Dec 2023
<ul style="list-style-type: none">Developed and integrated RESTful APIs, enabling seamless communication between front-end and back-end systems, resulting in a 20% improvement in data processing efficiency.Built a modern UI using React with Material-UI, Mantine, and TailwindCSS, improving development speed by 30% and ensuring a consistent design system across applications.Enhanced functionality with JavaScript and React, increasing user engagement metrics by 15% through improved interactivity and responsiveness.Planned reusable, modular components and optimized data flow using props, reducing code duplication by 40% and streamlining team collaboration.Delivered 10+ client projects with pixel-perfect design and cross-browser compatibility, achieving a 98% customer satisfaction rate and minimizing post-launch issues by 25%.Created responsive user interfaces with Tailwind CSS and Material-UI, reducing page load times by 1.5 seconds on average and boosting accessibility scores by 20%.	

PERSONAL PROJECTS

Event Management System	Tech Stack: React, J2EE, and MYSQL
<ul style="list-style-type: none">Created an online event management system software that streamlines event planning and management, enabling efficient functionality similar to an event manager.Launched a user authentication system allowing over 500 registered users to log in securely, while facilitating new user registrations with a seamless onboarding process.Designed an intuitive admin panel used by event organizers to manage up to 200 events annually, improving event coordination efficiency by 40%.Integrated real-time notifications and updates for event schedules, boosting user engagement by 25%.	
TweetStream : Full-Stack Social Media Platform	Tech Stack: React.js, MongoDB, Node.js, Express & Tailwind
<ul style="list-style-type: none">Configured secure user authentication and authorization using JSON Web Tokens (JWT), ensuring robust access control and protecting sensitive data for over 500 users with zero reported breaches.Perfected data fetching and caching with React Query, improving application load times by 40%, leading to a 25% increase in user retention and a smoother user experience.Refined Cloudinary for seamless image uploads, enabling users to personalize profiles with cover and profile images; deployed the application, achieving 1,000+ downloads and public use.Redesigned and Customized post management features, resulting in a 60% increase in user engagement through actions such as creating, deleting, liking, and commenting on posts.
