Objective

Seeking to enhance skills and knowledge in a supportive organization that values hard work and entrusts responsibilities.

Experience

• Mettletech Services Solutions Technology May-2022 - Current

Junior Software Developer

I'm part of the team at Mettletech Services Solutions Technology, where I focus on creating and enhancing software solutions. My role involves collaborating across teams to ensure seamless development and implementation of applications.

Responsibilities: -

Development: Contributing to the creation of web applications using technologies like Node.js and React.js.

Integration: Ensuring smooth integration of APIs and services like Graph API and Postman for efficient data communication.

Database Management: Supporting the setup and optimization of databases using MongoDB and MySQL.

Version Control: Managing code repositories using GitHub and Bitbucket to facilitate team collaboration.

Cloud Deployment: Assisting in deploying and managing applications on AWS, with a focus on security using AWS Cognito.

Front-End Enhancement: Contributing to improving user interfaces with HTML5 and JavaScript.

Education

- **Monteswar Sagarbala High School** 2016
10th Standard
65.86%
- **Monteswar Sagarbala High School** 2018
12th Standard
62.4%
- **Durgapur Institute Of Advanced Technology & Management** 2022
B.Tech (Computer Science)
86.5%
