PROFESSIONAL EXPERIENCE

Scoreme Solutions (IDBI Bank, Union Bank, Bank of Maharashtra).   **Mumbai, India**

Technical Project Manager.   *Dec' 2024 – Till Date*

Projects	Digital Lending Platform (DLP), Loan Origination System (LOS) Journeys, GST Analysis, ITR Analysis, CIBIL Analysis, Bank Statement Analysis (BSA), Data Aggregation (Online KYCs), Financial Statement Analysis, Credit Monitoring.
Client	IDBI Bank, Union Bank of India, Bank of Maharashtra
Operational Technologies	Workfront, JIRA, Slack, Excel.
Technology Landscape	HTML, CSS, JavaScript, PHP, SQL, Java, React,

Summary

ScoreMe Solutions is a leading fintech firm specializing in financial analytics and digital transformation for BFSI clients. I lead multiple projects across Digital Lending Platforms (DLP), Loan Origination System (LOS) Journeys, and advanced Financial Data Analysis modules like Bank Statement Analysis (BSA), Data Aggregation (Online KYCs), GSTR Analysis, Financial Statement Analysis, Credit Monitoring, and ITR Analysis. Additionally, I manage DR-DC infrastructure setups and server-level configurations to ensure high availability and security for critical banking systems.

Role and Responsibility

- **Project Planning and Stakeholder Management:** Define project scope, objectives, and deliverables while acting as the main point of contact between ScoreMe, IDBI Bank, Union Bank, Bank of Maharashtra and stakeholders to facilitate effective communication and collaboration.
- **Resource Management:** Coordinate with internal teams and vendors to ensure resource availability and assign tasks based on team members' expertise.

- **Technical Oversight and Quality Assurance:** Managing backend API integrations with CIBIL, GSTN, UIDAI, and other government portals.
- **Progress Tracking and Reporting:** Leveraged Workfront and JIRA for end-to-end project management, including sprint planning, task tracking, incident reporting, and stakeholder communication, while monitoring project progress, preparing status reports, and conducting user training sessions to drive transparency, adoption, and project success.
- **Budget and Progress Tracking:** Develop and manage the project budget while tracking progress and preparing status reports for stakeholders using project management tools for transparency.
- **Technical Oversight and Quality Assurance:** Oversee the integration of the digital lending platform with IDBI Bank's systems, ensuring the development of APIs and platform features meets specifications and compliance standards.

Anand Rathi Global Finance.   **Mumbai, India**
Assistant Manager.   *Mar' 2024 – Dec' 2024*

Projects	Investment Services, Insurance Broking, AR Preferred, Private Wealth Management
Client	Anand Rathi Group
Operational Technologies	Workfront, JIRA, Excel.
Technology Landscape	HTML, CSS, JavaScript, PHP, SQL, Opencart, Wordpress.

Summary

Anand Rathi Global Finance, a leading multinational in financial services, offers investment, insurance, private wealth management, and tech solutions. The project aimed to develop an intuitive online platform for Anand Rathi Global Finance, focusing on seamless financial interactions and services, with my involvement centered on ensuring its functionality and user experience.

Role and Responsibility
- Development: Successfully led teams through all stages of project execution, including sprint planning, estimation, design, development, testing, and deployment, utilizing technologies such as WordPress, React, SQL, and Jira to deliver key features and achieve a 95% on-time delivery rate
- Stakeholder Management: Enhanced stakeholder satisfaction by 20% as the primary liaison, through effective communication and expectation management.
- Documentation and Reporting: Maintained technical documentation **(HLD and LLD)** and provided status, incident, and problem reports to senior management, reducing misunderstandings by 15% and speeding up

decision-making.
- SEO Implementation and Mentorship: Implemented SEO strategies that significantly increased organic traffic and improved rankings, while mentoring **4 teams**, leading to better performance and retention.

Astrika Infotech.   **Mumbai, India**
Web Developer/Business Analyst.   *June' 2023 – Feb' 2024*

Projects	LSRSA Mangement School, Infiniti Mall, Supriya Life Science, IPRS, Closure
Client	Raheja Group, Infiniti Mall, Supriya Life Science, IPRS, QuickLife, Closure
Operational Technologies	Trello Agile, FRD, BRD, Excel
Technology Landscape	HTML, CSS, JavaScript, SQL, Opencart, Wordpress.

Summary

Astrika Infotech managed numerous projects from various clients, involving gathering client requirements and developing websites either from scratch or utilizing templates. They were adaptable, sometimes working with client-provided designs to create tailored websites. After completing a project, they swiftly transitioned to the next one in their pipeline.

Role and Responsibility
- Prepared **Worflows**, **Business Requirement** & **Functional Requirement** Documents.
- Organized project tasks and deliverables into **manageable milestones**.
- Conducted Status and Technical Meetings with Clients and discussed technical solutions and any changes in requirements or design.
- Presented **UAT** Demos to Clients and collected client feedback.
- Ensured projects were completed according to the financial constraints set by stakeholders.
- Engaged in daily scrum calls with the team and cross-functional meetings to track progress and align project goals.

Accenture.   **Mumbai, India**
Front End Developer.   *April' 2022 – June' 2023*

Projects	Astellas
Client	Astellas Pharma, USA

Summary

Astellas Pharmaceuticals is a Japanese Multinational company with a reach around the globe. The Client approached Accenture with the idea of their services and innovative therapies. The Client wanted a platform through which the patients and their families could interact with them. The objective of the project is to create an informative and functional website.

Role and Responsibility
- Development: Hands-on experience working on VEEVA CRM custom objects. Veeva Vault customization/configurations. End-to-End Integration of VEEVA VAULT with SFDC Application.
- Support: Providing functional support service and support to the business, taking initiative in assigning, and troubleshooting end user issues and change requests ensuring that turnaround time conforms to service level

agreements. Hands-on experience on Workfront Ticketing tool.
- Created workflows, page layouts, email templates, profiles and defined related tasks.
- Status and Technical face-to-face meetings with Clients to share the status of the work. Discuss technical solutions and discuss any changes in requirement and/or Design of an existing module.
- Site Branding, development of application pages, site pages, Web parts, user controls, Utility tools and workflow as per the requirement.
- Involvement in the UAT testing with the client.

D. Y. Patil University   **Mumbai, India**
Counselor/Web Analyst.   *April' 2021 – Mar' 2022*

Projects	D.Y. Patil Management Department
Client	VP Group
Scripting Languages	HTML, JavaScript, CSS, SQL

Summary

The D.Y. Patil University School of Management offers multi-domain education. Especially the BBA, MBA, Specializations, and Ph.D. programs. The University has a website that needs to be maintained from time to time. The objective of the project was to maintain the website and develop new features.

Role and Responsibility
- Managed online content and data with considerable experience, ensuring effective organization and accuracy.
- Adept at performing website testing and analysis, evaluating functionality and performance to drive improvements.
- Demonstrated sound knowledge of HTML and CSS, applying coding skills for effective website implementation.
- Utilized exceptional understanding of website design techniques and strategies to create visually appealing and functional sites.
- Maintained effective communication with internal teams and clients, ensuring smooth collaboration and project progress.

ACADEMICS

Masters in Computer Applications   **2018-2020**
Tilak Maharashtra Vidyapeeth   *Panvel, Maharashtra*
CGPA: 7.6/10
