SAHUKARA HARANATH DHAYAL

Node.js Developer | MEAN Stack Developer

+91 8297357014 • haranath992@gmail.com • linkedin.com/in/haranath-dhayal • Hyderabad, India

Summary

Expert Node.js Developer with 4+ years of experience in building scalable, high-performance backend systems. Skilled in API design, microservices architecture, and database management. Passionate about optimizing application performance, ensuring code quality, and collaborating with cross-functional teams to deliver enterprise-level solutions. Worked closely with the Information Security team to implement secure coding practices, enforce API security standards, and ensure compliance with data protection policies.

Skills

Node.js • Backend • RESTful API's • Microservices • Angular • JavaScript • MongoDB • MySQL • Express.js • Perfomance & Security

Experience

Asset Telematics Pvt.Ltd
Hyderabad, India

Software Engineer
11/2022 - 04/2025

- Designed and developed RESTful APIs and microservices using Node.js and Express.js to ensure high performance and scalability
- Implemented complex business logic and ensured seamless integration with third-party services and internal APIs
- Utilized JavaScript's asynchronous features like callbacks, promises, and async/await for efficient handling of I/O-bound tasks and APIs
- Successfully developed and deployed high-performance applications and APIs that improved system efficiency and user experience
- Collaborated with cross-functional teams including frontend developers, product managers, and QA testers to ensure project deadlines were met and deliverables were of high quality
- Implemented robust security practices including data encryption, API security, authentication, and authorization
- Performed API testing through using Postman. Created and managed Postman collections for all endpoints

Aithent Technologies Pvt.Ltd
Chennai, India

Junior Software Developer
08/2020 - 11/2022

- Worked 2 years on Angular and Node.js in development of web application
- Acquired good knowledge in MongoDB while using with node.js
- Experienced good knowledge in software development life cycle in the areas of analysis and design

Projects

Jio Humsafar
01/2023 - 04/2025

[Node, Express.js, REST API, MongoDB, MySQL, Microservices, Redis, Kafka]

- Built lightweight REST APIs with Express.js and optimized routes to reduce latency
- Leveraged Node.js's event-driven architecture to handle concurrent requests efficiently (e.g., driver updates, e-POD submissions)
- Leveraged the MongoDB for seamless database intergrations
- Segregated data by fleet or region to support future sharding and better organization

Magnise
11/2020 - 11/2022

[Node, MongoDB, Twilio]

- Developed a messaging component capable of sending various types of messages including WhatsApp, MMS, and emails to users
- Ensured all messages are stored in encrypted data
- Used the third party services like (e.g., twilio) to delivery the messages

Education

Aditya Institute of Technology and Management
Srikakulam, India

Bachelor's Degree in Computer Science
08/2016 - 08/2020
