

EDUCATION

B.Tech - Computer Science

Trinity Institute of Innovations in Professional Studies, IP University | Sep, 2019 - Aug, 2023

Secondary Education

St. Xavier's Sr. Sec. School, Delhi | Apr, 2017 - Apr, 2019

WORK EXPERIENCE

Application Developer uCertify | Sep, 2023 - present

- **Integrated AI tutor** within the platform, providing predefined prompts, capable of answering user questions based on the current course reading, providing personalised and context-aware assistance to enhance the learning experience.
- **Integrated OpenAI endpoints** with the platform, implementing a bypass that allows multiple users to access the API using a special key, while securely using our own key in the background to retrieve and display responses. These endpoints were used inside labs.
- Contributed to **upgrading the platform to Bootstrap 5.2**, improving the overall UI and design.
- **Implemented uCertify certifications** from scratch, streamlining the entire process from purchasing a voucher to receiving the certificate, displaying it on the profile page, and showcasing success.
- Key contributor to the project **upgrading the platform** from **PHP 7.3 to PHP 8.2**.
- Contributed to various other projects including Time on Task, Library Subscription, and UI enhancements.
- **Resolved over 75 bugs** to improve platform stability.

Freelance | Professional Salon Website [🔗](#)

I developed a fully responsive website for a client based on their specific requirements, focusing on the frontend to ensure a seamless user experience and design that aligned perfectly with their vision.

SKILLS
