PROFILE

Full Stack Web Developer with 2 years of expertise in MEAN and MERN stacks, skilled in building scalable applications and intuitive interfaces. Proficient in **Angular, React, Node.js, Express, MongoDB** and **MySQL**, with a strong focus on performance, clean code, and innovation.

Gsquare web technologies
Sep 2023 – Feb 2025   Mohali, India

SEJOBB | AngularJS, Typescript, Angular-Material

• Engineered a dynamic, role-based job portal using **Angular**, enabling seamless job discovery for seekers and streamlined job posting for providers

• Integrated Stripe Payment Gateway to facilitate secure, subscription management for Job Providers within the platform.

• Designed and implemented intuitive, role-specific dashboards to deliver personalized user experiences for both Job Seekers and Job Providers..

Quikbbok | AngularJS, Typescript, Angular-Material

• Built a role-based salon management system for Admins, Shop Owners, and Customers, streamlining shop management, appointment scheduling, and service operations.

• Integrated Stripe payment gateway to facilitate secure transactions between shop owners and customers.

• Engineered and maintained RESTful APIs using Angular, PHP, Laravel, and MySQL, improving data retrieval speeds by 40% and reducing user-reported data errors by 15% across the car club website.

Projects

ChatVerse | React, Python, Flask, Firebase, MongoDB, AWS S3

• Developed a scalable and secure chat platform using **React** , **Python** , **MongoDB**, **AWS S3 (Image Storage)**, and **Firebase** (**Real-time Messaging)**.

• Designed access control for chat rooms, enabling entry requests for private rooms and instant access to public rooms, reducing unauthorized access by 98%.

• Optimized backend performance and ensured seamless real-time interactions using Firebase, while securely handling media storage with **AWS S3**.

Yummox | ReactJS, NODE JS, MongoDB

• Engineered a role-based food delivery platform (Admin, Vendor, Customer) using **React**, **Node.js**, and **MongoDB**, inspired by Zomato/Swiggy.

• Secure role-based access and **Redux** state management with **AWS S3** integration for performant, scalable asset handling.

• Implemented dynamic, role-specific dashboards for vendors and customers, facilitating seamless shop creation, product management, and real-time food ordering updates.

Training

Calibyte Private Limited	Apr 2023 - Aug 2023
Completed MERN Stack Development Training at Calibyte	Kurushetra, Haryana

Education

Kurushetra University, Kurushetra	May 2019 - Sep 2021
Bachelors Degree CGPA 7.6 / 10	Kurushetra, Haryana
Govt. Sr. Sec. School, Pundri, Kaithal	Apr 2018 - Apr 2029
12th Percentage 59.6%	Kaithal, Haryana

Skills

Programming: Javascript, Typescript, Python, SQL, DSA, OOPS

Libraries and Frameworks: ReactJS, NextJS, NodeJS, MongoDB, Angular, MySQL

Deployment & Hosting : FilleZilla, Cloudways, FTP/SFTP, AWS, Vercel

Soft Skills: Leadership, Communication, Teamwork, Quick Learner

Certificates / Extracurricular

• Udemy-Complete JavaScript course

• GFG -DSA Complete Course

• Consistent LeetCode practice, 200+ problems solved

• State level Chess player
