SUMMARY

Full Stack Developer with 3+ years of experience building scalable and high-performance web applications using the **MERN** stack. Proven ability to optimize API performance, enhance UI/UX, and deliver robust backend systems. Passionate about clean code, performance optimization, and delivering seamless user experiences across modern web platforms.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Redux, Material Ui

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, SQL **Cloud & DevOps:** Docker, AWS

WORK EXPERIENCE

Credin | Software Engineer

Jan 2023-Present

- Developed and maintained core features of Credin's web platform using React.js and Redux, boosting user engagement by 25%.
- Refactored REST APIs to improve server response time by 40%, reducing server load and increasing system
 efficiency.
- Built a Loan Management System from scratch, contributing to a 25% increase in company revenue.
- Worked closely with UI/UX teams to ensure responsive and accessible designs across devices.

Jupitice Justice Technologies Private Limited | Software Engineer

Jun 2022-Nov 2022

- Contributed to a legal-tech client portal, improving user engagement by 20%.
- Optimized MongoDB queries, achieving a 25% reduction in database response times.
- Implemented robust authentication and authorization using JWT, reducing unauthorized access incidents by **40%**.

Newgen Software | Software Engineer

Aug 2021-Jun 2022

- Led UI development for a responsive e-commerce platform, resulting in a **30% increase in sales** in the first quarter.
- Collaborated with designers to implement pixel-perfect, cross-browser compatible interfaces.
- Enhanced mobile responsiveness, increasing mobile traffic by 20% in six months.

PROJECTS

E-Commerce Platform | React.js, Redux, Node.js, Express, MongoDB

- Integrated Stripe for payments, increasing transaction success rates by 15%.
- Enhanced user experience with a dynamic shopping cart and order flow, boosting average order value by 25%.
- Implemented secure login with Passport.js, reducing login issues by 30%.

Social Media App | React.js, Node.js, Express, MongoDB

- Designed real-time messaging with delivery confirmation (95% messages delivered in under 5s).
- Built secure authentication flow with JWT achieving 99.8% login success rate.
- Deployed on Render with mobile-first responsive UI.
