- Collaborated with cross-functional teams to deliver high-quality products on tight deadlines.
- Developed more than 6 software for desktop and mobile operating systems.
- Enhanced user experience through designing and implementing user-friendly interfaces.

2021-09 -

2023-10

Backend Developer

Digixito Media Pvt Ltd, Noida, India

- Developed RESTful APIs that facilitated seamless data exchange between clients and servers in a distributed environment.
- Integrated 3 third-party APIs from external applications into web platforms.
- Built APIs and data clients to consume APIs.
- Managed efficient SQL queries and data transport.
- Developed web platform back ends using Node JS and Flask frameworks.
- Troubleshoot and tested software and debugged to clean up code and improve efficiency.
- Wrote unit tests to evaluate high code coverage.

- Integrated third-party APIs from external applications into web platforms.

Projects

Retail Eazy , An retailer app providing a platform to place orders through their mobile without the hassle of logging into multi-apps of companies

- Technologies used - NodeJS (BE), React Native(FE), PostgreSQL ,<https://play.google.com/store/apps/details?id=in.retaileazy&pli=1>

Manage DMS , An admin portal for distributor management system .

- Technologies used - NodeJS (BE), React (FE), PostgreSQL , <https://manage.eazydms.in>

Dhur Maati, An mobile application which provides e-commerce marketplace to buy and sell fresh and organic agricultural produces.

- Technologies used - NodeJS (BE), Flutter (FE), PostgreSQL (AWS RDS), <https://play.google.com/store/apps/details?id=com.avigna.maati>

LUMOS Telco, A threat data analysis platform which aggregates raw data provided by Telco. Used by the counter terrorism wing of Indonesian Govt.

- Technologies used -NodeJS (BE), ReactJS (FE), Postgres, Elastic Search, Redis, Docker Fuse AI.

Internships and Certifications

2017-07	Internship in Tata Power Delhi Distribution Limited and Project on Parallel operations of transformers & reliability Improvement through condition-based maintenance
---------	--

2016-07	Internship in Delhi Metro Rail Corporation
---------	--

Education

2014-04 - 2018-01	BACHELOR OF TECHNOLOGY: Electrical Engineering
----------------------	---

APJ ABDUL KALAM TECHNICAL UNIVERSITY - Greater Noida, Uttar Pradesh

- FIRST-CLASS
- Greater Noida Institute of technology
- GPA: 66%

2012-01 -
2013-01

HIGHER SECONDARY

May Flower School - Patna, Bihar
GPA: 62%

2010-01 -
2011-01

MATRICULATION

DAV Public School - Sindri, Jharkhand
GPA: 78%

Soft Skills

- **Communication:** Ability to explain technical concepts to non-technical stakeholders.
- **Teamwork and Collaboration:** Experience working in cross-functional teams, such as collaborating with designers, product managers, and QA teams.
- **Problem-Solving:** Strong analytical skills for debugging and troubleshooting code.
- **Adaptability:** Quickly learning new technologies and frameworks.
- **Time Management:** Proven ability to prioritize tasks and meet tight deadlines in fast-paced environments and Delivering high-quality work under pressure.
- **Attention to Detail:** Thoroughly testing software to ensure reliability.
- **Leadership :** Mentoring junior developers and leading technical discussions or code reviews.
- **Critical Thinking:** Evaluating trade-offs between different technical solutions.
