WORK EXPERIENCE

Sr. Software Engineer

Jan 2023 - Present [Sinch \(India\)](#)

- Working as a **Full Stack Developer** on an Enterprise Product which is being used in India, Malaysia & Dubai.
- Developing new features, functionality, monitor product performance and user feedback to identify and address any issues or bugs moreover implementing new ideas to make products better that can solve real life business problems.

Product - It's a Dashboard Reporting tool for those using Sinch's communication services.

Used Technology: MERN, Redis, Gitlab.

Sr. Software Engineer

May 2021 - Jan 2023 [Mindtree Ltd \(India\)](#)

- Worked on (**Backend - Nodejs**) Casbin - ABAC authorization based infrastructures for an Enterprise Application.
- Was Responsible for developing new APIs & features as per business the requirement using Agile methodologies and also involved in demonstration and deployment.

Client - an American publicly owned real estate and relocation services company.

Used Technology: Nodejs, MongoDB, Express.js, Casbin, Redis, AWS, CICD, Docker, Bitbucket.

Software Engineer

Sep 2019 - May 2021 [Jellyfish Technologies Pvt Ltd \(India\)](#)

- Worked as a **Full Stack Developer**, where my role was understanding the requirements of the client, Design, Development and Demonstration of the application. This application was related to the Insurance Domain where the client provides n- numbers of services to other Insurance companies. Apart from this also worked on many other projects based on MERN Stack Technology.

Client - a leading provider of technology-enabled services to the insurance industry (United States).

Used Technology - MERN Stack

Project Management - Agile Methodologies

ACADEMIC PROJECT (Health Care Provider and Patient Portal)

- Developed an offline application which connects to Patients and Healthcare providers including separate panels(user, HCP & Admin) using Java Technology (Core Java, MySQL, JSP, Servlet, HTML, CSS). Where a user(he/she can be a patient also) can search n-numbers of registered Healthcare providers list and can contact them as per the requirement.
-

EDUCATION

Master of Computer Application(MCA) in 2019 — (University - AKTU Lucknow - India)

Bachelor of Science(Bsc) in 2016 — (University - MJPRU, Bareilly - India)
