PROFESSIONAL SUMMARY

IT Project Manager with 2+ years at Banas Dairy, driving digital transformation for rural empowerment and efficiency. Led projects like a digital farmer platform and HCM software, achieving key milestones. Managed end-to-end lifecycles, defining requirements, schedules, scopes, and budgets while mitigating risks. Coordinated resources, ensured scope and timeline adherence, adjusted plans, and maintained stakeholder relationships with regular updates. Proficient in Agile/Waterfall, Jira, and MS Project.

EXPERIENCE

Project Manager

Banas Dairy (AMUL)

Palanpur, Gujarat

July 2023 – Present

- Led projects from requirements definition through deployment for a INR 5.3 Cr HCM system, identifying schedules, scopes, and budget estimations, achieving 95% HR workflow automation within 8 months and 90% employee adoption post-go-live
- Coordinated 10-member team and external vendors to ensure adherence to scope, schedule, and budget, assigning and monitoring resources to integrate HRIS with SAP payroll and attendance systems, saving 5% on vendor costs
- Established processes for managing scope and assessing risks, digitizing 5,000 employee records with OCR-based extraction and cloud storage, ensuring 100% data accuracy and compliance with GDPR and ISO 27001
- Directed INR 45 Lakh Digital Dairy Transformation across 40 villages, developing a bilingual platform with WMS, POS, and iAccounts integration, reducing inventory discrepancies by 25% (200 to 150 monthly) and sales transaction time by 15% (10 to 8.5 seconds)
- Analyzed project status and revised schedules during 8 Agile sprints, resolving API latency and managing multitrack performance databases for digital projects, maintaining 99.9% system uptime
- Maintained stakeholder relationships, providing day-to-day updates to 50+ farmers and senior management, reporting project outcomes and escalating risks, while conducting 25+ training workshops to increase app logins by 20% (1,000 to 1,200)
- Developed partnerships with third-party vendors and researchers, saving 10% on licensing costs and delivering advanced HR analytics and reporting tools

Power BI Developer Intern

Nivea India Private Limited

hmedabad, India

May 2022 – July 2022

- Developed Power BI dashboards using DAX, reducing production errors by 15% for cross-functional teams
- Coordinated stakeholder requirements, presenting insights to management for data-driven decisions
- Built scalable database architectures, enhancing data accessibility for production projects
