SUMMARY

Results-driven Senior Software Developer with **4.5 yrs** exp. Skilled in Node.js, React.js, PHP, & AWS. Delivered major platform enhancements at CarDekho Group, leading technical initiatives that cut costs by 44%, boosted performance by 40%, and slashed Payments TAT by 80%.

EXPERIENCE

- Software Developer II** Gurgaon
 - CarDekho Group* *July 2023 - Present*
 - Played a pivotal role in enhancing core platforms (PaymentBox, TitleBox, LoanBox), significantly boosting operational efficiency, service quality, and user satisfaction.
 - Led the technical effort in re-architecting LoanBox for modularity, in collaboration with the engineering team, which reduced new product type development time from 10 days to **10 days to 6 hours** (a **96%** improvement).
 - Collaborated with eng team to integrate RazorPay, decreasing Payments TAT by **80%**** (UTR generation to 20 minutes) and successfully processing 4,000+ transactions with a **0.61%** failure rate post-launch.
 - Boosted platform performance by **40%** and achieved **44%** cost savings by upgrading platform versions and migrating critical applications to AWS ECS.
 - Enhanced customer and channel partner experience by simplifying communication and information exchange mechanisms within the payment processing workflow.
 - Technologies:** Node.js, React.js, PHP, AWS (ECS, ELB, IAM, CloudWatch, EventBride, Secrets Manager, Lambda).
- Software Developer** Gurgaon
 - ATechnos* *Oct 2020 - July 2023*
 - Engineered and launched a diverse portfolio of client-facing applications, including the GoGames MTN gaming platform (supporting over **50,000** daily active users), the MEDIMIX retailer gratification app, consistently exceeding client objectives.
 - Applied full-stack development expertise to build scalable and optimized web applications like GoGames MTN and TAMBOLA FLIPKART, ensuring high performance by reducing average page load times by **25%** and improving application responsiveness under peak load conditions for large, concurrent user bases.
 - Played a key role in the end-to-end project lifecycle for innovative applications such as the MEDIMIX multi-role platform and the Nestle WhatsApp bot.
 - Tech Utilized:** HTML, CSS, jQuery, JavaScript, PHP, Node.js, React.js, AngularJS, MySQL, MongoDB, Socket.io.

SKILLS SUMMARY

- Languages & Frameworks:** Node.js, PHP, React.js, JavaScript, AngularJS, HTML, CSS, jQuery
- Databases:** MySQL, MongoDB
- Cloud & DevOps:** AWS (ECS, ELB, IAM, CloudWatch, S3), Secrets Manager, Lambda, Amazon EventBridge.
- Tools & Methodologies:** Git, JIRA, Agile, REST APIs, Microservices, SDLC.
- Soft Skills:** Technical Leadership, Team Collaboration, Project Coordination, Event Management, Time Management.

AWARDS & RECOGNITIONS

- ISO(International Organization for Standardization)** June 2019
 - It is a 120 Hours Experience Certification on Python with Django*
- Extra Miles** July 2024
 - For platform performance (40% increase) and cost-efficiency (44% saving) via upgrades & ECS migration.*
- Raise The Bar** April 2024 & Feb 2025
 - For LoanBox modular architecture and STP flow implementation reducing TAT & errors.*
- DELITE Heroes** March 2024
 - For RazorPay integration success (80% TAT reduction) highlighting effective teamwork.*
- Multiple Certificates of Appreciation for core values and performance.

EDUCATION

- Kurukshetra University, kurushetra** Yamuna nagar, India
 - Bachelor of Technology - Computer Science; Precentile: 70* *July 2016 - June 2020*
 - Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Databases*
