CLIENT-CENTRIC SUMMARY

I help product-based businesses transform their ideas into powerful digital platforms. As a passionate MERN Stack Developer, I've built and deployed scalable applications that solve real-world problems, enhance user experience, and grow business operations.

With 3+ years of experience, I don't just code – I collaborate, strategize, and innovate. From designing intuitive interfaces in React to building solid API infrastructures in Node.js & MongoDB, I ensure each solution is client-loved, performance-ready, and future-proof.

KEY CLIENT WINS

2024 - 2025

Upwork (Swyftbooking)
