## SUMMARY

Software Developer with 3 years of professional experience, proficient in JavaScript, React.js, Redux, and Node.js. Skilled in Agile development, building scalable, high-performance web applications with a focus on clean code and optimization.

## SKILLS

**Programming Languages:** JavaScript, ES6+, TypeScript, HTML, CSS, Node.js, Python, MongoDB  
**Frameworks/Libraries:** ReactJS, Redux, Tailwind CSS, React Router, React Toastify, Jest, APIs  
**Tools:** VS code, JIRA, Github, Bitbucket, Git, Parcel, Webpack, Babel, Postman, Version Control System  
**Soft Skills:** Communication, Team Work, Debugging, Growth Mindset, Detailed Planning

## EXPERIENCE

### Frontend Developer

Sep '24 — Nov '24  
Gurgaon

Root Fabrics

- Built a e-commerce platform with real-time product data integration.
- Developed a modular UI using React Hooks for state management and API fetching.
- Implemented search and filtering for quick apparel discovery, including a "Top Trending" filter.
- Integrated React Router DOM and Redux Toolkit for seamless navigation and global state management.
- Designed and developed reusable UI components, styled with Tailwind CSS for a modern, responsive look.

### Senior Systems Engineer

Oct '20 — May '23  
Pune

Infosys

- Enhanced a financial advisor app by integrating API-based fund selection and improving portfolio tools.
- Developed PDF upload functionality, streamlining document handling for fund types.
- Boosted performance by **20%** by simplifying file downloads and reducing navigation complexity.
- Built reusable React.js components using hooks and ES6 for maintainable, scalable code.
- Optimized frontend performance with lazy loading, reducing navigation complexity, and improving page load times.
- Collaborated in Agile development with Jira, gathering requirements and ensuring smooth project execution.

### Intern

Jan '20 — Mar '20  
Mysuru

Infosys

- Developed login, registration screens, and product search with a focus on user experience.
- Led Agile processes as Scrum Master, ensuring collaboration and timely delivery.

## PROJECTS

### WatchNest - Video Streaming & Recommendation Platform [Link](#)

- Developed a video streaming platform with dynamic video search and real-time data fetching using the YouTube API.
- Optimized search with debouncing, reducing API calls and enhancing responsiveness.
- Designed a responsive sidebar for seamless navigation across categories.
- Designed a dynamic watch page with seamless navigation.
- Integrated GPT-powered search via OpenAI's API for personalized, AI-driven video recommendations.

### Video Caption Tool [Link](#)

Mar '25

- Built a Video Caption Tool using React and Redux Toolkit.
- Added functionality to insert video links and store them in the Redux store.
- Created a caption input form to add captions with start and end timestamps.
- Displayed captions in sync with video playback using a caption overlay.
- Managed video URL and captions state using Redux slices for scalability.
- Enabled real-time caption preview with video playback.

## EDUCATION

B.Tech in Computer Science & Engineering, SRM IST

## CERTIFICATIONS

React JS, Namaste Dev

## AWARDS

Recognized for enhancing user experience and boosting client satisfaction with a key feature.

Certificate of Appreciation - Insta Award.
