Experience

Organization : Jojo Techland
Role : Team Lead
Location : Hyderabad
Duration : Feb 2022 to Till Date
Project Name : WhiteRobe

Synopsis:

WhiteRobe, a unit of JoJo Techland Pvt. Ltd., is a leading IT solutions provider specializing in digital transformation, cybersecurity, and cloud computing. Founded in 2020, it leverages over 20 years of industry experience to deliver cutting-edge, client-centric technology solutions. The company focuses on innovation, precision, and efficiency to create secure and scalable IT environments. With a strong commitment to trust, transparency, and long-term partnerships, WhiteRobe helps businesses unlock their full potential in an ever-evolving digital landscape.

Responsibilities:

Team Leadership & Project Management:

- Led a development team, ensuring project timelines and deliverables were met.
- Coordinated team tasks, conducted meetings, and provided technical guidance.
- Assisted in resource planning and task allocation to optimize team efficiency.
- Facilitated a collaborative and innovative team culture to enhance productivity.
- Conducted performance reviews and provided constructive feedback to team members.
- Managed project risks and implemented mitigation strategies for timely delivery.

Frontend Development (Angular & Ionic):

- Developed and maintained web and mobile applications using Angular and Ionic.
- Ensured responsive UI/UX design and performance optimization.
- Integrated third-party libraries and APIs to enhance application functionality.
- Implemented state management and reusable components to improve code maintainability.
- Developed dynamic and interactive UI components to enhance user engagement.
- Ensured cross-browser compatibility and mobile responsiveness.

Backend Development (Node.js):

- Developed and managed robust server-side logic using Node.js.
- Created and maintained RESTful APIs to support frontend interactions.
- Integrated third-party services including Razorpay for payment processing, WhatsApp APIs for communication, and email services for transactional notifications.
- Implemented authentication and security best practices for data protection.
- Optimized database queries and API responses for better performance.

Code Quality & Best Practices:

- Reviewed code, enforced best practices, and maintained project standards.
- Debugged and resolved technical issues efficiently.
- Maintained proper documentation for better code understanding and onboarding.
- Conducted code refactoring to improve maintainability and scalability.
- Implemented proper version control strategies using Git for collaboration.
- Conducted peer code reviews to ensure consistency and maintain quality.

Collaboration & Communication:

- Worked closely with stakeholders to align development with business goals.
- Mentored team members and supported their technical growth.
- Provided regular progress updates to management and ensured transparency.
- Collaborated with designers and testers to ensure smooth development workflows.
- Facilitated knowledge-sharing sessions to enhance team expertise.
- Communicated effectively across teams to improve project coordination.
