Nationality: Indian

SUMMARY

Detail-oriented and results-driven **Full-Stack Developer** with **3 years of experience** in designing and developing high-performance, scalable web applications. Expertise in **React.js**, **Node.js**, and **REST API integration**, with a proven ability to build reusable components, optimize application performance, and design secure server-side logic. Proficient in modern JavaScript workflows (Redux, Flux) and tools like Webpack and Jest, delivering seamless and user-friendly web solutions. Skilled at troubleshooting, debugging complex issues, and implementing best practices in security and data protection. Passionate about collaborating with cross-functional teams to deliver innovative solutions and staying updated with the latest industry trends.

WORK EXPERIENCE

React Developer Rightpoint India

Jaipur, Rajasthan

Feb 2022 - Present

- Developed and implemented **responsive user interface components** using React.js concepts and workflows such as **Redux** and **Flux**.
- Collaborated with design and development teams to discuss UI ideas and application requirements.
- Troubleshoot and debugged front-end issues, ensuring cross-browser compatibility and performance optimization.
- Led a team of developers managing React-based projects, overseeing project timelines, conducting code reviews, and mentoring junior developers. Applied Agile methodologies to ensure timely and high-quality delivery of web applications.
- Improved front-end performance by **25%** using advanced profiling tools and code optimization techniques.
- Built reusable React.js components and enhanced performance for critical pages using **Webpack** and **Babel**.
- Documented application changes and updates to maintain an organized front-end codebase.
- Used build tools like Webpack and Gulp to streamline development processes and applied server-side rendering (SSR) techniques to optimize performance for faster page loads.
- Wrote scalable and maintainable code following **JavaScript best practices**.
- Implemented front-end architecture to support seamless user experiences in **progressive web applications (PWAs)**.
- Provided regular project updates to stakeholders, ensuring alignment with business objectives and project goals. Demonstrated excellent communication and problem-solving skills while working in cross-functional teams.
- Developed robust server-side logic using **Node.js**, ensuring responsiveness and scalability for API requests.
- Created and consumed REST APIs, ensuring smooth front-end and back-end integration.
- Implemented security measures such as **JWT authentication** and data protection protocols.

Fraud Prevention Representative

TTEC India

Ahmedabad, Gujrat

Feb 2020 - Dec 2021

- Monitored customer transactions and activities to detect and prevent fraudulent activities, including account takeovers, theft, and other potential risks.
- Analyzed patterns and investigated suspected fraud cases, gathering evidence and documenting findings.

- Compiled findings into comprehensive reports, presentations, and dashboards, incorporating data visualizations such as charts and graphs, and providing clear, actionable insights for stakeholders.
- Collected and aggregated data from diverse sources including financial reports, industry databases, surveys, and relevant sector-specific materials to ensure comprehensive analysis.
- Utilized statistical tools and models to analyze data, identifying key trends, patterns, and insights. Proficient in using specialized software for quantitative and qualitative analysis.

EDUCATION

EdYoda Digital University MERN Stack Development Course & Certification	2021-2022 Bangalore, Karnataka
Janardhan Rai Nagar Vidyapeeth University MSc in computer science	2016-2018 Udaipur, Rajasthan

SKILLS

Front-End Technologies: React.js, HTML5, CSS3, JavaScript (ES6/7), SCSS/SASS

Back-End Development: Node.js, Express.js, REST APIs, GraphQL

State Management: React.js, Redux, Flux, React Hooks, Context API

Performance Optimization Tools: Profiling, Debugging, Webpack, Babel

Testing Frameworks: Jest, Mocha, Enzyme

Database Systems: MongoDB, SQL, PostgreSQL

Security & Data Protection: Authentication, Authorization, JSON Web Tokens (JWT)

Version Control: Git, GitHub, Bitbucket, GitLab

Other Skills: Progressive Web Applications (PWAs), User Interface Design, Troubleshooting, Front-End Architecture, Agile Methodologies, Jira, Docker

CERTIFICATIONS

Adobe Analytics Business Practitioner Professional Certified.	2023-2025
Google Analytics Certified.	2024-2025
Responsive Web Design Certification (freeCodeCamp)	
React.js and Redux Certification (Udemy)	
Modern Web Development with JavaScript (Coursera)
