## Professional Summary

---

Creative, results-driven professional with a strong background in Web Development and UI/UX Design, currently working as a Project Manager at ClinicSpots. With over 2 years of progressive experience — starting as an intern, advancing to Team Lead, and now managing cross-functional teams — I specialize in delivering high-impact digital solutions that are both user-focused and performance-driven.

Skilled in leading designers and developers through all phases of the project lifecycle, I bring hands-on expertise in tools and technologies like Figma, WordPress, PHP, Vue.js, HTML, CSS, Tailwind CSS, MySQL, Trello, and Jira. Passionate about mentoring, problem-solving, and building collaborative environments that drive innovation. Recognized with two Star Performer of the Month awards and named Enthusiastic Participant of the Year for exceptional contributions and leadership.

## Work Experience

---

### ClinicSpots - Navi Mumbai, Maharashtra, India

#### ***Project Manager (Nov 2023 – Present)***

- Leading a cross-functional team of UI/UX designers and developers to deliver scalable web solutions aligned with business goals.
- Managing end-to-end project lifecycle using tools like Trello and Jira for planning, execution, and tracking progress.
- Overseeing UI/UX enhancements using Figma to improve user experience and drive higher conversion rates.
- Coordinating development efforts using WordPress, PHP, Vue.js, HTML, CSS, Tailwind CSS, and MySQL for robust and responsive web applications.
- Collaborating with stakeholders to gather requirements, define project scope, and ensure timely delivery.
- Mentoring team members, removing blockers, and ensuring high standards of quality and performance.

#### ***Web Developer (Apr 2023 - Nov 2023)***

- Maintained the ClinicSpots website using WordPress, integrating LeadSquared.
- Developed responsive UI components to elevate brand engagement.
- Worked closely with designers to ensure pixel-perfect implementations.

#### ***Frontend Developer Intern (Nov 2022 - Dec 2022)***

- Built frontend features with Vue.js 3, enhancing site responsiveness.
- Supported live projects and collaborated in agile sprints with senior devs.
- Gained hands-on experience with UI/UX workflows.

## **UI/UX & Software Development Intern (Apr 2022 - Oct 2022)**

- Created wireframes, prototypes, and interface designs using Figma.
- Contributed to multiple client projects, combining creativity with usability.
- Built a foundation in agile development, version control, and responsive design.
