CAREER TIMELINE

BOSCH Ltd.
Oct'18 – Oct'19

Ravi Organics Pvt. Ltd.
Dec'19 – Dec'21

Futurese Tech
2024 – Present

WORK EXPERIENCE

Project Manager at Futurese Tech, Bangalore, K.A | June 2024 – Present

Client: Aditya Birla Management Corporation

Role:

- Designing a SIPOC framework for Cloud resource configuration, integrating an escalation matrix to streamline issue resolution.
- Leading market research and product strategy, identifying opportunities, defining roadmaps, and executing go-to-market strategies for product launches and enhancements.
- Collaborating with stakeholders prioritizing product features, ensuring alignment with business goals, translating them into actionable improvements.
- Driving cross-functional collaboration to facilitate seamless communication between teams and ensure timely project execution and optimizing resource allocation to enhance project efficiency by effectively managing resources, timelines, and budgets.
- Implementing risk mitigation strategies by identifying potential project risks and proactively developing contingency plans and enhancing process efficiency by continuously improving workflows using Agile and Lean methodologies to maximize productivity.

PROJECTS:

Logistics Insights Tower – Hindalco

- Developed a Cost Factor Map for aluminum outbound logistics, leading to a 7% reduction in transportation expenses across key distribution channels.
- Set up an initial data pipeline for inbound logistics dashboards on ADLS, facilitating data-driven decision-making through cross-functional collaboration.

Similarity Executive Dashboard & Track & Trace – Ultratech Cement

- Designed and implemented KPIs for the Track & Trace Dashboard, increasing shipment tracking accuracy by 25% and improving delivery efficiency.
- Created a structured wireframe for the new destination prediction dashboard using Figma and performed comprehensive API testing (Performance, Load, Sanity, Smoke) using JMeter.
