Summary

Passionate **Backend Developer** with expertise in **Node.js**, building scalable and efficient applications. Experienced in developing RESTful APIs, working with databases like **MySQL** and **SQLite**, and optimizing backend performance. Adept at problem-solving and delivering high-quality solutions with a focus on clean, maintainable code.

Technical Skills

Languages and Databases: Node.js, React.js, JavaScript, Python, Django, PHP (Laravel), SQL, MySQL

API Development: RESTful APIs

Tools: Postman, Git, AWS

Experience/Internship

SubcoDevs IT Consulting And Services Pvt Ltd

September 2023 – Present

Software Developer

Noida, India

AMS (Web Application)

- **Technologies:** Node.js, Sequelize ORM, MySQL
- A web application for business management, integrating multiple company functions.
- **API Development:** RESTful APIs

SubcodevsHRMS (Human Resource Management System)

- **Technologies:** PHP (Laravel), Google Login Integration, **Ubuntu Deployment**
- A complete HRMS solution that includes employee management, attendance tracking, and performance evaluation.
- **Live Link:** hrms.biztimeline.com

Inventory Management System

- **Technologies:** Node.js, Express.js, MySQL/SQLite
- An inventory management application that tracks products, their quantities, and prices, allowing users to add, update, and delete items from inventory.
- **Usefulness:** Great for understanding database relationships (products, quantities) and practicing the manipulation of data in a real-world context.

360 Hording (Advertisement Platform)

- **Technologies:** **Node.js**, **Express.js**, MySQL
- A platform to display and manage advertisement hoardings across multiple locations.
- **Live Link:** 360hoardings.com

Softpro India Computer Technologies (P) Ltd.

July 2022 – August 2022

Web Developer Trainee

Lucknow, India

Job At Mail (Job Portal Web Application)

- **Technologies:** Python (Django), **HTML5**, **CSS3**, **JavaScript**, SQLite3
- A job portal to connect job seekers with employers.
- **User Interface Designing:** HTML5, CSS3, Java Script, Bootstrap

Achievements

- **Independently** conceived and executed a scalable backend architecture for key projects during my internship, showcasing proficiency in strategic design and implementation.
- Successfully deployed a project on AWS, optimizing performance and ensuring the **seamless integration of RESTful APIs**.

Education

Bachelor of Technology | Computer Science
