

POOJA GOHIL

Software Quality Assurance

Professional Summary

Experienced **Software Quality Assurance Engineer** with 3 years of expertise in manual testing of web and mobile applications, primarily in the healthcare domain. Adept at designing and executing test cases, identifying defects, and ensuring high-quality product delivery. Recently expanded skill set with **hands-on automation testing** using **Selenium and Java**, demonstrating a proactive approach to continuous learning and improvement. Passionate about delivering robust, user-centric solutions and excited to contribute to technology-driven projects with a focus on quality, efficiency, and sustainability.

Professional Experience

Software Quality Assurance Engineer

Panva IT Solutions Pvt Ltd — Vadodara, INDIA [2020 – 2023]

- Served as a QA Engineer for nearly 3 years, focusing on healthcare domain projects involving both websites and mobile applications (iOS and Android).
- Participated in all phases of the **Software Testing Life Cycle (STLC)**, from requirement analysis to test closure, contributing to high-quality software delivery.
- Designed, wrote, and maintained comprehensive **manual test cases** to validate application functionality, usability, performance, and security.
- Conducted various types of testing such as **functional, integration, system, regression, sanity, UI, and smoke testing** across web and mobile platforms.
- Created and executed test scenarios covering edge cases and real-world user behavior to enhance product reliability and user satisfaction.
- Used **JIRA** to log, track, and manage bugs, collaborating closely with developers to ensure timely defect resolution and re-testing.
- Reviewed and analyzed requirement documents, user stories, and wireframes to understand functionality and define testing scope.
- Participated in **Agile/Scrum ceremonies** including sprint planning, daily stand-ups, sprint reviews, and retrospectives, ensuring QA alignment with development timelines.
- Worked with the development team to understand **API endpoints**, perform **API testing** using tools like **Postman**, and validate backend integration.
- Assisted in preparing **QA documentation** including test summary reports, bug metrics, and traceability matrices.

Education & Qualification

Master of Computer Application

Sardar vallabhbhai patel institute of technology (GTU) – 2018 – 2020

Bachelors of Computer Application

Maharaja Krishnakumarsinhji Bhavnagar University – 2016 - 2018

Certification and Training

Manual Testing Training from **Rishbh software** as well as doing internship over there.

Recently done certification course of **Automation Testing** from **Unicode Technologies**.

Core Competence

Flexible
Critical thinking
Creative mind
Service attitude
Communication
Analytical Skills

- Ensured timely delivery of tested features by prioritizing test execution and regression checks under tight deadlines.
- Gained exposure to **Selenium** and **basic Java**, contributing to automated test scripts and exploring automation opportunities.

Technical Skill

- Testing Methodologies: Functional testing, integration testing, system testing, regression testing, sanity testing, performance testing, API testing.
- Test Case Design: Creating and executing test cases, including edge case testing.
- Bug Reporting: Identifying, documenting, and reporting bugs effectively.
- Software Development Life Cycle (SDLC) & Software Testing Life Cycle (STLC): Understanding the different stages and their impact on testing.
- Agile Methodologies: Knowledge of Agile Knowledge of selenium and basic java.

Soft skills:

- Communication Skills: Ability to clearly and concisely communicate findings and issues to technical and non-technical audiences.
- Time Management: Ability to manage multiple tasks and meet deadlines.
- Collaboration: Working effectively with development and QA teams
- Quick learner Flexible to work in any environment.
