PROFILE

I am an IT Operations and Senior Developer with over 6 years of experience in full-stack development, e-commerce systems, and IT infrastructure management. My background includes performance optimization, server administration, cybersecurity, and project leadership using Agile and Waterfall methodologies. I hold certifications in Project Management and Cybersecurity, along with a Master's in Computer Science, giving me a strong foundation in systems design and operational efficiency. Proficient in technologies such as PHP, Laravel, Python, React.js, and Node.js, I'm adaptable to evolving business needs and committed to delivering secure, high-performing IT solutions.

TECH STACK

TOOLS

EXPERIENCE

IT Operations & Senior Developer | 2023 - April 2025

Upepe Media - Hybrid

- Led full-cycle **web development** and operations, managing custom website projects for **print services, quotations, and e-commerce**.
- Worked with **PHP, Laravel, WordPress, MySQL, Bootstrap, and JavaScript** to deliver high-performance solutions.
- Built a **Python CLI** tool for the in-house SEO team to automate on-page analysis and **keyword tracking**.
- Managed **WHM/cPanel** servers, performed **domain/SSL** configurations, website and email **migrations**, backups, and tuning.
- Provided **remote tech support, CMS training**, and project coordination across cross-functional teams.

Full Stack Developer & IT Officer | 2022-2023

Infiniti Biz Sol - On-Site

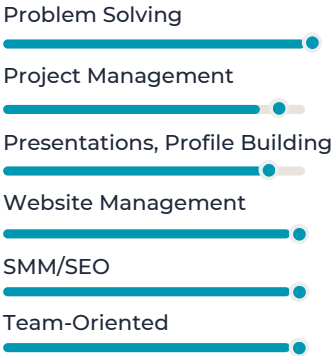

- Developed custom websites for accounting, law, real estate, tech, and car booking websites using **WordPress, PHP, Squarespace, MySQL, and JavaScript**.
- Utilized **Squarespace** for rapid development of client sites with clean, customizable templates while ensuring strong functionality and design.
- Integrated **payment gateways**, user authentication, and custom features for client-specific needs.
- Implemented responsive designs using **Bootstrap** and **Tailwind CSS** for enhanced performance and user experience.
- Managed backend API development, server configurations, and data migrations.

Support S.E and Developer | 2021 - 2022

PrintCosmo - On-Site

- Developed custom websites for print material **ordering**, production **workflows**, and dynamic **quotation systems** using **WordPress, Core PHP, Bootstrap, and MySQL**.
- Engineered a **doctor appointment** platform with real-time **booking** and scheduling, enhancing the user experience with a **responsive frontend**.
- Designed and optimized **eCommerce** solutions, integrating **payment gateways** and streamlining product catalog management.
- Conducted thorough **API testing** with **Postman**, monitored SEO performance via **Screaming Frog** and **Google Search Console**, and improved email deliverability for optimized communication.

SOFT SKILLS

EXPERIENCE

Junior Software Engineer | 2019 - 2020
Xeffect Studio - On-Site

- Developed and maintained **backend** systems for real estate applications, school management systems, and human resource management applications using **Laravel, PHP** and **AJAX**.
- Designed and optimized **database** structures to ensure smooth data management and improved application performance.
- Provided **L1 support** for clients, troubleshooting and resolving basic technical issues to ensure smooth user experience.
- Conducted **API** writing and testing, ensuring seamless integration and data flow between services.
- Collaborated with the development team on **bug** fixing, **performance** tuning, and code optimization to improve **software** reliability.
- Assisted in configuring email systems and supported application **deployment** and **maintenance**.
