# Shantanoo Dhatrak

Senior Software Engineer

Address Pune, India 411027 Phone +91 8468949983 E-mail shantanudhatrak@gmail.com **LinkedIn** www.linkedin.com/in/shantanoodhatrak-5076821a5

Experienced Full Stack Node.js developer with over 4+ years of experience, committed to continuous learning and adaptation, and a collaborative team player. Meticulously detail-oriented with a proven track record of delivering results-driven solutions. Proficient in both front-end and back-end development, ensuring efficient project execution.

## Skills

Node.js, Angular, Express, PostgreSQL, React

JavaScript, Java

AWS, Git, Docker

Agile Methodology

# Work History

#### May 2021 - Senior Software Engineer

**Current** Cross Country Info-tech Pvt. Ltd, Pune, India (Remote)

(27th May 2021 - Present)

<u>Project Title:</u> SCOUT (Healthcare Data Integration) <u>Description:</u> As a Full-Stack Developer, I managed and enhanced a diverse range of modules using Node.js 20, Angular 13, Java 8, PostgreSQL, microservice architecture and AWS cloud services. Developed new modules to meet evolving business needs while ensuring alignment with project goals and operational requirements.

Key Responsibilities and Achievements:

- Engage in the end-to-end development lifecycle of the data integration platform, focusing on scalability, reliability, and performance optimization.
- Implemented microservices architecture.
- Integrate diverse data sources and APIs for efficient data collection, processing, and aggregation.
- Maintain and enhance user interfaces with Angular to visualize aggregated data, providing actionable insights.
- Provide timely existing software support, resolving issues, performing data manipulations, and enhancing applications as required.

- Utilize AWS services for scalable infrastructure provisioning, storage, serverless computing, and monitoring.
- Conduct code reviews, offer technical guidance, and collaborate with team members to ensure adherence to best practices and project milestones.
- Actively participate in Agile ceremonies like sprint planning, daily standups, and retrospectives, contributing to a collaborative and iterative development process.

Through these ongoing responsibilities, I demonstrate proficiency in utilizing modern technologies and methodologies to create robust, scalable, and user-centric solutions.

## Education

## Nov 2020 Bachelor of Engineering: Electrical Engineering

SVP College of Engineering & Technology - Nagpur, India 8.34 CGPA

### Accomplishments

- Honored with several Recognition and Spot Awards from CCI.
- Played State Level Basketball Tournament.
