PROFESSIONAL EXPERIENCE

Infotech Hub - Kanpur

Sr. Software Developer Nov 2023 – Present

PROJECTS

1) Title: TDX-Launchpad

Description: It is a comprehensive platform for creating and managing private and public token sales. It enables users to buy, sell, and invest in token sales while integrating with social platforms like Twitter, Discord, Telegram, and YouTube. The platform also features a 3-level referral system and supports shoutout tasks, rewarding users with token points upon completion and verification. 🚀

Duration: Aug 2024 – Present

Role: Backend Developer

Technology: Node JS, MongoDB, AWS, Git

2) Title: BAAI

Description: It is a platform where users can create accounts and participate in node sales conducted via smart contracts. These sales are managed by the **BAAI admin**, and users can earn rewards through a **3-level referral system** by referring node sales. Additionally, the platform allows users to provide feedback after purchasing nodes, enhancing the overall experience. 🚀

Duration: Aug 2024 – Oct 2024

Role: Backend Developer

Technology: Node JS, MongoDB, AWS, Git

3) Title: Oasis-X

Description: It is a blockchain-powered platform built using the Ts.ED framework (Node.js) and PostgreSQL, with Docker and a Docker Pipeline for deployment. It enables users to buy and mint NFTs on both EVM and Sui blockchains. The project involved integrating EVM and Sui Blockchain, developing a BlockSync service for Sui, and creating a launchpad and marketplace for seamless token sales.

Duration: Mar 2024 – July 2024

Role: Backend Developer

Technology: Ts.ED, PostgreSQL, AWS, Docker, SUI Blockchain, EVM Blockchain
