EXPERIENCE

Neuronimbus Softwares Oct 2021 - Dec 2024

Software Engineer

- Developed the app from scratch, maintained multiple cross-platform mobile applications with React Native, targeting both **iOS & Android** platforms.
- Built scalable architectures with efficient state management using Redux & Context API.
- Worked closely with designers to implement pixel-perfect, accessible, and responsive **UI/UX** designs.
- Optimized performance by **30%** using **Redux Toolkit** to reduce unnecessary re-renders.
- Integrated **Razorpay** payment gateway for **E-Commerce**.
- Translated Figma UI/UX designs into interactive, pixel-perfect app interfaces.
- Collaborated in **Agile** development environments, actively participating in sprint planning, code reviews, and daily standups.

Amazon India

June 2020 - Dec 2020

CS Associate

- Won “Associate of the Week” twice.
- Handled customer inquiries & provided effective solutions.

PROJECTS

Starbucks Partner App

Dec 2023

The partner app is used by company employees to manage stores.

- Use **Redux** to avoid props drilling.
- Employees enter site details in the app.
- Roles review and approve or reject requests.
