SUMMARY

I am a passionate mobile app developer student who specializes in building seamless and efficient applications. With expertise in React Native and Flutter, I enjoy crafting intuitive user experiences while optimizing performance. Whether it's integrating backend services, managing state with BLoC, or implementing secure authentication like JWT in Django, I loves tackling challenges and refining my skills. Always eager to learn and improve, I thrives on turning ideas into functional, high-quality applications.

TECHNICAL SKILLS

Flutter	React Js	Firebase	Machine Learning
Python	React Native	MongoDB	computer Vision
Nodejs	Django	SQL	

PROJECTS

Rakshika

- Our Women Safety App provides a comprehensive solution by offering real-time location tracking, emergency
- alert features, and access to helpline numbers. It empowers women to navigate safely and seek immediate
- assistance in distressing situations.

Speed Limit Board Detection.

- Generally, driver face problem of over speeding e-challan in highways without knowing the speed limit for that lane.
- Through a camera we can scan the road and if any speed limit is present for that road it will be detected and a message will forward to the driver if he is over speeding.
