ABOUT ME

Detail-oriented and experienced Manual Tester with over 3 years 4 months of hands-on experience in manual testing, test case creation, and defect tracking. Adept at identifying bugs, enhancing software quality, and ensuring seamless user experiences. Seeking to leverage my skills in a dynamic team, aiming to contribute to the delivery of high-quality software products and drive continuous improvement in testing processes.

EXPERIENCE

 2022(Jan)-Currently working

Quality Analyst

BeSpoke QA Technologies, Zirakpur, India

- Responsible for writing and execution of **functional & Non-functional** test cases of assigned module.
- Owned and tracked the bugs status in every release cycle and involved in defining the status of the bugs.
- Verifying the bugs/issues in the application to ensure that they have been rectified to closure and there are **no open ripple effects** arising out of any bug closure.
- Attention in detail and consistent follow-through to assure bugs are resolved.
- Performed testing on different operating system Android, iPad, Mac Lion, Mac 10.5, Windows 7, Windows 8.1 and Windows 10.
- Performed the **regression testing** to check for any new bugs, which may have got introduced in to the system/project as a result of the previous bug fixing cycle.
