PROFESSIONAL SUMMARY

Node.js Developer with hands-on experience in designing, developing, and maintaining web applications using the MERN stack. Proficient in server-side programming, building RESTful APIs, and integrating with front-end frameworks. Adept at problem-solving, debugging, and working collaboratively in a team environment to deliver high-quality software solutions.

TECHNICAL SKILLS

Languages: Core JAVA, C, JavaScript

Technologies/Frameworks: HTML5, CSS3, React, Express, NodeJS, Bootstrap

Developer Tools: VS Code

Databases: MongoDB, MySQL

EDUCATION

Integral University, Lucknow

MCA - Master of Computer Application - CGPA - 9.45

2021 – 2023

Lucknow, Uttar Pradesh

Integral University, Lucknow

BCA - Bachelor of Computer Application - CGPA - 8.25

2018 - 2021

Lucknow, Uttar Pradesh

CERTIFICATIONS

] *MERNFullStackDevelopment – ZNInfotechPvt.Ltd*

PROJECTS

Blog-App | [EJS](#), [NodeJs](#), [ExpressJs](#), [MongoDb](#), [VS Code](#)

2024

- Purpose: Build a blog application allowing users to create, read, update, and delete blog posts.
- Technology Stack: Node.js for backend, EJS for templating engine.
- User authentication (sign up, log in, log out).
- CRUD operations for blog posts (create, read, update, delete).
- Users can view a list of posts, read individual posts, and interact through comments.

E-Commerce App | [React.js](#), [NodeJs](#), [ExpressJs](#), [MongoDb](#), [VS Code](#)

2023

- Developed an online store where users can browse products, add items to the cart, and complete purchases.
- Frontend: React.js for dynamic and responsive user interfaces.
- Backend: Node.js with Express for server-side logic and API endpoints.
- Database: MongoDB for storing product, user, and order data.
- Authentication: Use JWT (JSON Web Tokens) for secure user authentication.
- User Authentication: Sign up, log in, and manage user profiles.
- Product Management: Admin can add, update, and delete products.
- Shopping Cart: Users can add products to the cart, update quantities, and remove items.
- Checkout Process: Secure payment integration and order processing.
- Users can browse products by categories, search for specific items, and view product details.
- User accounts to manage orders, track shipments, and view order history.
