## Professional Summary

Dedicated and results-oriented Android Developer with 3+ years of experience in building high-performance, scalable mobile applications. Adept in Kotlin, and React Native with expertise in modern Android development tools, MVVM architecture. Proven track record of delivering seamless user experiences and impactful solutions, including apps with hundred's of downloads. Strong problem-solving and analytical skills, with a commitment to excellence and continuous improvement.

## Technical Skills

**Languages:** Kotlin, Java, React Native
**Frameworks & Tools:** MVVM, Retrofit, OkHttp, Firebase, Redux, Material Design, Payment Gateways, Git.
**Technologies:** JSON, SQLite, Firebase, Google Cloud Platform, Stripe Payment Gateway
**Development Tools:** Android Studio, Gradle, Git, JUnit, Espresso, Mockito
**Core Expertise:** Custom UI Development
**Project Management tool:** Jira, Agile.

## Work Experience

**Mobile Developer at illuminz, Mohali (***April 2021 – Dec 2024)*
- Successfully published multiple apps on the **Google Play Store**, delivered cross-platform apps optimized for performance and scalability using **modern Android components** like Jetpack, Navigation, and ViewModel.
- Spearheaded implementation of **MVVM architecture** across projects to enhance code modularity and maintainability.
- Actively contributed and support QA processes with **unit and UI testing** with low defect leakage
- Excellent collaboration with designers, product managers, and QA teams to meet business objectives.

## Projects overview

**KINN (Pet Care App)**
- Designed and developed a robust **pet care management app** using **React Native**, Redux, Firebase, and Axios, simplifying pet owners' daily tasks.
- Delivered a seamless **appointment scheduling system** for pet owners and caregivers, ensuring smooth **task assignment** (walking, feeding, medication).

**OnCall (Service Booking Platform)**
- Developed a **service booking app** allowing users to browse and schedule home services, from beauty treatments to repairs.
- Streamlined professional profile management and real-time updates via **push notifications** for users and service providers.
- Built and optimized the **slot booking system** for an intuitive user experience.

**Stylette (Buyer & Seller App)**
- Engineered a platform for buying, renting, and selling products with a focus on **handling product variants** and managing cart functionality.

**Gateos (Food Delivery App)**
- Developed a **feature-rich food delivery app** using **Kotlin**, Firebase, and Stripe.
- Designed and implemented **guest login**, local cart management, and location-based features, enhancing user convenience.

## Education

**Master of Computer Applications (MCA)**
**Punjab University, Chandigarh**
*2018 – 2021*
