EXPERIENCE

Software Engineering Intern
Huxan Group Co.

Sep 2024 – Present
London, UK (Remote)

- Developed and managed AI and software projects.
- Oversaw database integration ensuring seamless functionality.
- Led end-to-end development for a job posting website, from ideation to maintenance.
- Trained developers to ensure smooth project updates.

Software Development Engineering Intern
VADAI

Oct 2024 – Present
Chennai, Bangalore, India (Remote)

- Developed an Edtech mobile application from scratch using Flutter.
- Utilized GetX for state management and streamlined navigation.
- Designed intuitive interfaces for both student and teacher applications.
- Built and integrated a full backend using Node.js.

Software Development Engineering Intern
Dot House and Information Technology

Dec 2023 - Feb 2024
Riyadh, Jeddah, Saudi Arabia

- Collaborated on ASP.NET projects under technical leadership.
- Handled database installations, configuration, and pricing data integration using SQL.
- Contributed to ERP and POS system enhancements.

Junior Software Engineer
Dalo International Corporation

March 2023 - October 2023
Riyadh, Saudi Arabia

- Managed website development and database programming using Node.js, Express.js, and MongoDB.
- Researched and optimized MySQL queries to enhance data retrieval times.
- Resolved website bugs, significantly improving performance.

AI Fellowship
TechX

Dec 2024 – Jan 2025
USA (Remote)

- Integrated Retrieval-Augmented Generation (RAG) model with OpenAI's APIs.
- Employed advanced vectorization techniques for enhanced data retrieval.
- Collaborated with cross-functional teams for smooth API integration and deployment.

Full Stack Developer Intern
EY

Dec 2024 - Jan 2025

- Contributed to full-stack development using the M.E.R.N. stack.

AI Intern

Nov 2024 - Jan 2025

SAP

- Developed AI prototypes and solved real-world problems through innovative approaches.

IBM SkillsBuild Intern

Jun 2024 - Aug 2024

IBM

- Completed projects focused on Artificial Intelligence and Emerging Technologies with an emphasis on frontend development.

Future Ready Talent Intern

Nov 2022 - Feb 2023

Microsoft

- Engaged in projects utilizing Azure Web Services to support enterprise solutions.

Android Developer

Aug 2022 - Sep 2022

Google Supported Virtual Internship (SmartInternz)

- Completed a structured curriculum on mobile application development.

PROJECTS

Bulky Book • Developed a secure application using ASP.NET Core MVC with Repository Pattern and N-Tier Architecture. • Deployed the application to Azure for scalable cloud hosting. ([Website](#)) ([Github](#))

EDUCATION

B.Com

Aug 2021 - Sep 2024

Relevant Coursework: Web Development, MySQL.
